It gives you most satisfaction (and wisdom) in getting a week's washing done, and out of the way, in ONE quick hour! Especially when your clothes come out cleaner — when less soap is used, less electricity, less hot water. There are no long "cycles" to wait for. One tubful of hot water does a complete washing. It's the quickest, most economical way to wash. Five models to choose from.

FARMALL HAS DONE IT AGAIN

By actual test on the farm the Farmall Cub and Super A are the most universal tractors for diversified farming on the market, with a complete set of Farmall equipment for every operation from mustard seed to velvet beans.

The touch control on the above tractors completely eliminates the muscle-weary, hand-operated levers common on other tractors. The operator can adjust and lift the heaviest gang harrow with the ease of opening his car door. Other advantages too numerous to mention are yours in the Farmall tractor.

The same is true with the brand new "Super C," now for the first time available with a complete set of genuine equipment.
