Citizens Can't Stand Another Tax Increase

Tonight, Dunn's city council will consider a proposal for a special election to allow citizens to vote on another tax increase for the purpose of financing recreation

We believe all citizens are in favor of adequate recreation. That goes without saying. We shall not discuss that issue in this editorial.

The purpose of this editorial is to oppose any increase in taxes for any reason.

At the moment, we cannot think of any cause worthy enough to result in a raise of taxes in the Town of Dunn. Only a grave emergency could justify another increase.

Members of the city board polled by The Record have taken the same stand and are expected to till the proposal tonight. We congratulate them for such a stand.

Our present officials proved earlier this year that they have some consideration for the taxpayers by reducing the tax rate five cents. They wanted to cut the rate still more.

The town is fortunate in having an economy-minded set of officials—particularly at a time when the state and Federal administrations have no concern for the taxpayers-except to tax and spend.

payers—except to tax and spend.

Already, confiscatory taxes are stifling trade and hurting our economy. And right at this moment, the President is working on a message to ask Congress for higher taxes—which should not be imposed.

Even if the Town of Dunn didn't owe a cent of money, we'd be opposed to a tax increase at this time.

And with the town owing \$759,000—more than any town its size in the entire State—we believe any increase in taxes is unthinkable.

During the entire year, the Erwin Fire Department is on call every day to fight the anywhere in the community. The personnel, all volunteers, are ready to drop whatever they are engaged in at the sound of the fire shen, to speed to wherever the flames threaten, whether it is nill or private property.

Once each year, the citizens of Erwin are given an apportunity to say thanks to their fire fighters by purchasing the Erwin city tags. These tags cost a dollar each and the proceeds go to the Erwin Fire Department.

There is nothing compulsory about this purchase. Residents of the community are merely asked to purchase these tags. A motorist who does not buy a tag will not get a licket or be penalized in any way if a city tag is not dislayed on his machine.

However, in view of the outstanding service the Erwin Fire Department renders to the citizens of the community throughout the year, we feel that one of these

SCREENING MEN

Clark can weed out the technically unfit by eliminating from consideration those men without a college degree in engineering or its equivalent in previous practical experience.

But many men who possess approximately the same technical training, still will show wide variations in their later success.

Let's take two men with the same mental alertness and straight "A" averages in their college courses. We'll call them Tom and Jerry. Which one do you think holds the greater promise of success on the job?

TOM VS. JERRY

Tom likes to gamble, as at poker or on the horses. Jerry desent

Jerry worked his way through school. Tom's father subsidized him. In childhood Jerry also worked for his money, while Tom had a liberal allowance from his indulent father.

Jerry has a record of finishing what he starts. Tom often latinches with optimism upon courses of action, but lets them drop when he is half through.

Tom is a good pool player. Jerry won the 2-mile run at college, so is use to long training and self-control.
