"COLD-BLOODED MURDER"
 Insisting on trying Taylor for his life, Solicitor Hooks declared: "If there was ever a case of cold-blooded, premeditated murder this is it."

Judge Harris this morning overruled Solicitor Hooks' demands for a death penalty and over Hooks' open protests accepted the lesser plea and gave Taylor life in prison. State Senator J. Robert Young and Archie Taylor, defense attorneys, had offered this plea at the beginning of court, but it was refused.

It was then that the defense attorneys threw the legal bombshell by asking that the case be quashed and juries dismissed on the contention that Negroes are discriminated against and excluded from serving on both the petit and

grand juries in Harnett. They argued to the court in their motion that because Negroes are not allowed to serve according to proportionate representation that their Negro defendant could not be given a fair trial in this county.

Yesterday, Judge Harris heard details from a parade of Harnett officials who testified. Among them were: Mrs. Inez Harrington, clerk to the board and register of deeds, Tax Collector Duncan P. Ray, Jr., Chairman Lorton A. Tart, Herman S. Holloway and Worth Byrd of the county board, Sheriff Bill Salmon, Tax Supervisor Berles Johnson and Former Clerk L. M. Chaffin.

DENY DISCRIMINATION
 Questioning revealed that no Negroes have served on the grand jury in Harnett but that at various times Negroes have been summoned for service on the petit jury.

Each of the officials denied that Negroes have been discriminated against at any time. Chairman Tart said the only names excluded by the board after being drawn by a child from the jury box were those of persons known to have moved out of the county or to be physically unable to serve.

Sheriff Salmon said that while tax lists are separated according to race the list given him to summon never indicated race. Senator Young said that if the court had refused to accept the plea tendered, the case would have been taken to the State Supreme Court on the jury discrimination contention. He said that in another case the Supreme Court had upheld such a claim from a Negro defendant.

Polio is the only epidemic disease still on the increase in America. Since 1948 polio victims in the U. S. have averaged 30,000 yearly in contrast to the 10,000 to 12,000 average of the 10 previous years.

Most Checks Are Still Bearing Date of 1951

Having date trouble? Do you still forget that the date changed to 1952 on January 1st? According to the result of a spot check at businesses and banking institutions here, you are not the only one.

At both banks, the First-Citizens and the Commercial, of the checks coming in, approximately 25 per cent still bear the 1951 date, although the month is usually correct entered.

Since most of the customers at these banks are known to the personnel, the checks are cashed and the date re-written. However, if there is any question, or if an unusually large amount is involved, the checks are mailed back.

Officials at the banks feel that there is no necessity for embarrassing their customers when the date is so obviously an unconscious mistake. They say the situation straightens itself out automatically by January 15th.

ALWAYS EXPECT IT
 "We always have this sort of thing at the beginning of a new year," commented J. N. Stephenson, at the Commercial Bank. "If we mailed back all the checks that come in with the wrong date it would keep one of us busy with that one task. Of course, if there is any doubt, the check is returned."

Stenographers, too, have their troubles, and erasers get a workout at this time of year. The electric typewriters used at many of the offices in Dunn add to their woes, because the characters are harder to erase and correct.

tioned it I probably will." However, she admits that she would probably be finding the adjustment to the new date difficult if she had been doing office work last year. "I started working here on January 1st," she explains, "and I wasn't accustomed to writing 1951."

So if you find yourself still writing 1951, you have plenty of company. Which reminds us, I believe that check we mailed out this morning was dated January 5, 1951.

LIVEWEIGHT TRACTION

gives farming a real boost!

When your field work calls for more real pull, live-weight traction will see you through. The hydraulic TRACTION BOOSTER in the CA and WD Tractors changes deadweight to liveweight. Weight of both tractor and implement is automatically shifted to bear down on drive wheels when soil is stubborn and tillage is tough. The hydraulic TRACTION BOOSTER reduces wheel slippage — enables the CA and WD to do draw-bar jobs that normally would require heavier tractors. Stop in and let us show you how it works.
