

# NO SIR... NO JOBS TOO BIG FOR SENTER BRICK COMPANY

"BUILD WITH BRICK"

## HOME

Now, you can't afford to build with anything but BRICK. Not so long ago only the well-to-do could afford a BRICK home, but today only the rich can afford anything else.

With a BRICK home you save on long range costs, such as painting, pest-proofing, waterproofing, insurance and depreciation. On these items, you save as much as \$23.58 each month in 20 yrs. on a \$10,000 home. So build with BRICK for economy and beauty, you'll be dollars ahead before your home is paid for.

## INDUSTRY

Industry builds with BRICK because it plans to stay in business a long time. An industry built with BRICK stands for quality. Industry owes it to its community to make its building a matter of civic pride. With BRICK, maintenance costs are kept at a minimum year in, year out --- Resulting in higher profit.

Industry recommends time-tested, dependable building materials like BRICK and Clay Tile for the best and safest in building.

## FARM

"As a farmer I know that BRICK pays off. BRICK is cooler in summer, warmer in winter, more comfortable --- and above all safe.

My operating costs are lower too, with BRICK buildings. I never have to paint the exterior of my barn or home and I use less fuel in winter. Termites and other pests can't destroy BRICK. I ain't bragging, but if you want to save money in a long run --- Build With BRICK.

"I Like It"

## STATE

Public structures are built for permanence --- That is why BRICK is always used. For this reason tax rates are lower.

Hard-burned BRICK always have more than the necessary strength. According to a recent compressive strength test made by the Froehling & Robertson Inc., Richmond, Va., an average BRICK from SENTER BRICK COMPANY can stand 112480 lbs. pressure per square inch.

### I'M PROUD MY HOME IS MADE OF BRICK.....

My Banker Loaned Me Money Because He Knew I Was Building With BRICK. He said I Was a Better Financial Risk, and Pointed Out That a BRICK Home Has a Greater Long Term Value Because It Depreciates Less Through The Years and Has a Higher Resale Value.
