Ruffin Warns Citizens Can Lose Freedom

William H. Ruffin of Durham, president of Erwin Mills, Inc., and immediate past president of the National Association of Manufacturers, struck out here last night against socialism, regimentation and government control and warned that "The individual freedom of which we have boasted for generations can be lost right here at home by our indifference toward the individual responsibility which that freedom imposes upon us."

Ruffin asserted that individual citizens must share the responsibility for the atmosphere and conditions which brought about mine cost scandals, corruption in RFC loans, exposures of internal revenue scandals, nation-wide crime syndicates protected by prominent politicians, basketball bribery and other national scandals.

"One does not have to be a public official to be faithless to the public trust," he said. "One does not have to be a bribe-giver or a bribe-taker to strike a devastating blow at freedom and free institutions." He said "it is faithless to the public trust when less than half of those eligible vote in a presidential election, and it is a repudiation of a citizen's first obligation to shrug his shoulders and say, 'what's the use of voting—all politics are crooked anyway.'"

Ruffin reminded that "Bad officials are elected by supposedly good people who do not vote."

He reminded that for every influence peddler there must be an (Continued on page three)

Dunn Selected As Site For Truck Terminal

Dunn has been selected by the International Harvester Company as the site for a big International Truck terminal to serve the two Carolinas. It was announced here this morning.

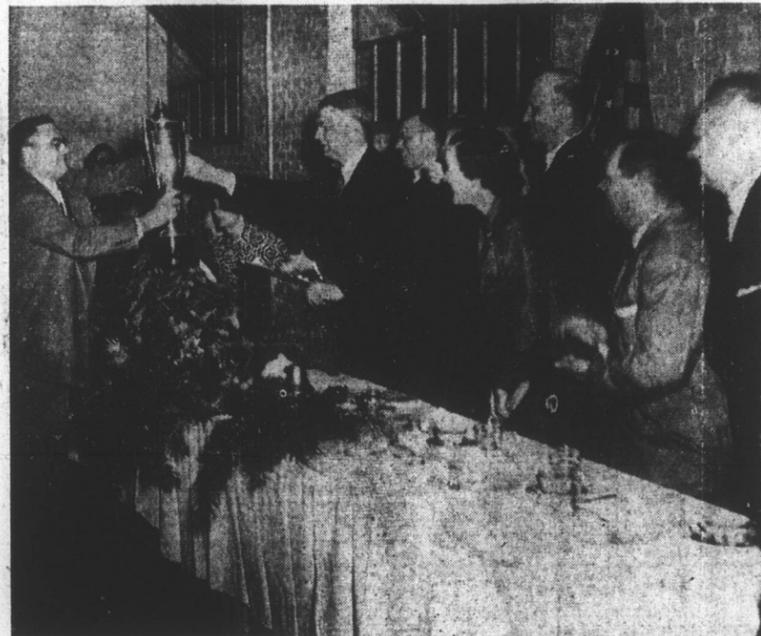

The announcement was made by Clarence E. McLamb, vice president and general sales manager of McLamb Machinery Co., which will handle the operations for the truck company. McLamb Machinery Co. is the local dealer for International Trucks.

Warehouses owned by Buck Currier will be used for storage of the trucks, which will be brought to Dunn via Car-Carrier Service from International's factories at Springfield, Ohio, Fort Wayne, Indiana and Bridgeport, Connecticut.

It was pointed out that several hundred trucks will be kept here in the local warehouses for distribution to dealers throughout the two States.

Mr. McLamb, who is also president of the Dunn Chamber of Commerce, pointed out that the terminal will mean much to Dunn. Drivers will be coming here regularly for overnight stays and the terminal is expected to attract a large amount of new traffic to the town.

Loading facilities are now being constructed at the warehouses and a staff will be employed to handle the operations, Mr. McLamb said.

Eight Children In One Family Burn To Death

NORTH BEND, Ore. — Eight children of one family burned to death early today when fire destroyed a two-story frame house, Corner Brewer Mills reported.

The father and mother, Mr. and Mrs. Thomas Weeks, and one daughter, Colores, 14, were hospitalized in Coos Bay with burns.

Mills said the fire apparently started shortly after midnight. The house, which was not completed, was located in an area where no fire department was available.

Mills identified the victims as Beverly, about 15; Owen, 12; Nina, 11; Rodney 10; Linda, 8; Dixie, 6; Carol 4, and Teddy 2. He said Beverly had been visiting friends at Charleston, on Coos Bay, and returned home only last night.

Stowe said Mr. and Mrs. Weeks and Delores were in front of the structure. After vainly trying to enter the red-hot building, Stowe took Weeks and his daughter to the hospital.

Stowe said Weeks was "hysterical." He is a logger.

Truman Asks Extra 5 Billion, But Congress To Stand Firm

WASHINGTON — President Truman called on a reluctant Congress today to raise more than \$5,000,000,000 in new taxes.

He said this must be done "very soon" because the "tragic necessity" of rearmament requires it.

Mr. Truman coupled his urgent recommendation with a warning against "torpedoing" the defense program by what he called "false economy."

SAYS HARDSHIPS AHEAD He laid down his bold program in a 13,000-word annual economic report which disclosed that federal spending will hit a stratospheric \$85,000,000,000 to \$90,000,000,000 in the next year. And he put the American people on notice that they must prepare to bear some inconveniences and hardships because this "is going to be a year of strain."

In unveiling his election-year request for still higher taxes, Mr. Truman did not specifically mention bigger personal income taxes. But he clearly hinted such. He said his request could be achieved "by eliminating loopholes and special privileges, and by some tax rate increases."

PROPOSAL DOOMED But his proposal seemed foredoomed. Congressional tax leaders already have served notice they will oppose any further tax boosts, barring all-out war.

Mr. Truman's call for still greater taxes was part of a 12-point legislative program which included: Stricter price and credit controls. More foreign aid. Continued rent controls. Revision of the Taft-Hartley labor law. A better farm price support program. Improved social security and un-

Also on hand was rich and red-haired Sheppard Abdullah King III, the Texas cotton heir who married the torrid hip-slinger in a Moslem ceremony.

"I'm just as anxious to see her dance as anybody," drawled King. "I've never seen it except in the movies."

DENIES IT'S BELLY DANCE. Samia and King rolled into town yesterday in his Cadillac, with the hot-eyed, auburn-haired Nile beauty protesting that the shimmying she will demonstrate before lustro society here tomorrow midnight is not a "belly dance."

While Kefauver refused to say whether he learned anything about Mr. Truman's intentions, other sources revealed that the Tennessee Democrat's friends are moving ahead with plans to build an organization to recruit support and enter his name in selected state primaries.
