Mrs. Pat Lynch

leased by Mrs. Lynch:

1952 may well be the dawn of a new era. All of the savage strength and power of the mommunistic evil may be buried by the righteous reawakening of our people the world over. From out of this horrible clash of ideologies may come a silent peace more profound — more startling than ever before. This time the peace must be guarded well. There must never be a third conflagration. Atomic might, a bountious gift of service for the preservation of mankind, can readily be turned into so destructive a force that can hurl our civilization off the face of the universe.

These are challenging times. The women of our land-our world-must equip themselves with the knowledge so vitally important in this struggle against the potent fuses of self-destruction. Our responsibility is crystal-clear. At no time in the history of our world, has our job been so well outlined.

Both active and passive participation in any intellectual endeavor results in a mental stimulation so necessary to our general well-being. The Information Clinic affords us precisely this type of stimulus.

Wanted: One First "Class Crystal Ball!

Serving folks for almost a century now, we like to think we're pretty good at knowing just what they want and how to please 'em best. But experience and intuition can go just so far.

Sometimes we think we could use a "crystal ball" to find out if customers have "something on their mind" they're not telling us—that we don't know, but should—in order to serve them better.

Have you something on your mind that concerns us? We'd appreciate knowing it—then the crystal ball won't be necessary. Please write:
