Chicora Club
Opening To Be August 13

Plans are rapidly taking shape for the gala opening of the Chicora Country Club which has been set for Wednesday afternoon, August 13. Workmen have been busy during the past few days getting the golf course in final condition and various committees which have been appointed by the directors are spending much time and effort to make the opening of the club a gala one. The Publicity Committee, headed by John Dairymple, is in charge of the opening day program and this committee has announced the following schedule of events for that date.

Leading off the day's activities will be a blind bogey tournament for all members. Members may participate in this any time that morning up until four o'clock in the afternoon. At 3 o'clock there will be a hole-in-one contest which will be open to everyone, whether a golfer or not. There will be prizes given for this event. At 4 o'clock one of the highlights of the program will be a nine hole exhibition golf match between four golf professionals. The pros who have accepted to play this match are Mr. C. C. McCulston of Fort Bragg, Mr. Agee Welch of the Smithfield Club, Mr. Mel McAdams, pro of the Forsythe Country Club of Winston-Salem and husband of Selene Parker of Dunn, and Mr. Hal Jernigan the local pro. At the conclusion of the exhibition there will be brief ceremonies in front of the golf shop prior to support Mr. Guyton Smith, president of the club will speak briefly, as will Mr. E. H. Bost, manager of the Erwin mills. The grand finale will be a dutch barbecue supper served by Griffin of Goldsboro with plenty of chicken on hand for those who do not care for barbecue.

The committee as well as the directors wish to let it be known that everyone is invited to all of the opening day program as it is by no means limited to club members. The directors and club members are anxious for the general public to visit the course and see just what is being done to further the cause of better recreation facilities for the community.

As for the membership of the club itself, it will be closed when 200 members have been secured and the list is nearing that number now. Those interested in joining now may do so by contacting Mr. Earl Jones, secretary of the club who will issue the stock. The directors recently voted to close all \$100 stock as of September 1st. After that time only \$200 stock certificates will be issued.

Many local golfers are using the course daily for practice rounds and all are awaiting August 13th when the official opening gets underway. Some 30 to 40 golfers have been traveling to Smithfield, Fayetteville and Raleigh regularly every week to play golf so it goes without saying how well pleased the local Sneads and Hogans will be not to have that traveling to do henceforth.

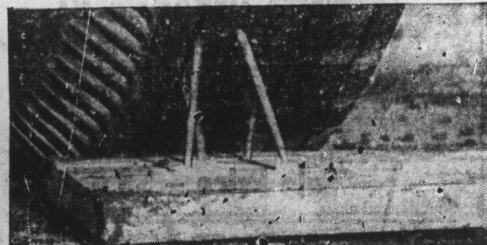

B.F. Goodrich Tubeless Tire

Protects against
ALL 3 TIRE HAZARDS

1. Protects Against Blowouts!

It has an air retaining lining that's part of the tire itself. If a bruise occurs, the tire's flexing eventually causes pin-hole leaks in the lining. Instead of a dangerous blowout, all you get is a slow leak — plenty of time to come to a safe stop.

2. Seals Punctures!

A gummy layer of special rubber under the tread seals against the puncturing object, plugs the hole permanently when the object is withdrawn. It actually seals punctures as you ride. Now you can forget about troublesome punctures.

3. And Now It DEFIES SKIDS, Too! To Earn The Name "LIFE-SAVER"

In rain the new tread wipes a wet road so dry you can light a match on it, grips for quick stops. Starting up, it grips like a caterpillar tread. The close spacing of the "grip blocks" does it.

Patents covering basic features of Tubeless Tires have been issued to the B. F. Goodrich Company by the U. S. Patent Office.

PLUS . . . 10% TO 15% GREATER MILEAGE — AND IT COSTS LESS THAN A REGULAR TIRE AND SAFETY TUBE

Up To \$15 Each For Your Old Tires
