Young Forger Is Sentenced

Oscar Clifford Williams, 22-year-old Dunn youth, was given a 12 months suspended sentence by Judge Henry L. Stevens in Harnett Superior Court.

In view of the fact that it was his first offense, the jurist suspended the sentence for two years on condition that young Williams not violate any law and that he pay costs and on each Saturday pay five dollars until he reimbursed the First Citizens Bank and Trust Co., \$52 and W. P. Willford of Dunn, \$47.

PLEADED GUILTY

Williams pleaded guilty to two counts of forgery, admitting that he forged the name of F. N. McLamb to two checks on this bank. The check for \$47 and bearing the endorsement of Bill Lee was presented at the Willford store, the other was cashed at the bank. It bore the endorsement of Bill McLamb.

The youth offered no defense and declined to take the stand in his own behalf. Earl Mahone of the Dunn bank identified the checks which Williams had cashed.

1953 DeSoto Being Shown

"See the 1953 DeSoto," urged Groucho Marks and that's good advice from any source. A visit to the showrooms of the W and S Motors Co., is a visit well worth while. Hundreds were flocking to the local firm today to see it.

The new model of this outstanding motor vehicle goes on display there today and the new automobile is something that definitely must be seen to be appreciated.

The new DeSoto embodies the latest advancements in automotive engineering many of which are exclusive features of this particular car, and many that are far in advance of any other models.

The power plant is the big new V-8 Fire Dome of the Powermaster 6, both remarkably efficient engines, designed for a minimum of service without costly repair.

Another innovation is the power steering which allows the wheels to be turned as easily when the car is at a standstill as when the machine is in motion. This feature makes it simple to get into those hard to negotiate parking places.

The four wheel hydraulic brakes are of the latest design and incorporate all the latest safety features. The contact area on these brakes in 201 square inches, making for better stops under all conditions.

The ignition is waterproofed insuring quick easy starts under all sorts of weather conditions and all vital connections are secure.

Super cushion low pressure tires are standard equipment, giving the owner of one of these new cars the easiest, ride possible. The interior is designed specifically for comfort.

As Dewey Whittenton says, "We could talk about this new car from now on, but the best way to learn about it is to see it for yourself." He extends a cordial invitation to everyone to drop in at the W and S Motors and do just that.
