

BULLETINS

(Continued from page 1)

DETROIT (AP) — A 14-day strike of 2,500 workers at a Ford Motor Co. parts plant, which had idled 30,000 Ford assembly line employees across the nation, was settled today. All but 5,000 of the laid-off workers had been scheduled to return to work today even before the strike at Monroe, Mich., was settled. In view of the settlement, they were expected to remain on the job.

MIAMI BEACH, Fla. (AP) — Arthur H. Vandenberg Jr., who rejected a White House appointment as "too hectic" for his stomach ulcers, planned to return to New York today to resume his job with the Nelson A. Rockefeller International Basic Economy Corp.

SEOUL, Korea (AP) — Three American Sabre jet pilots shot down a single Communist MIG-15 today—each blasting at the Red plane in separate encounters. Capt. Vincent Stacey of Crystal Falls, Mich., said the aerial fight occurred after the Sabres spotted four MIGs straying from a formation of 40 about 42,000 feet south of the Suho reservoir.

CHICAGO (AP) — Cattle shipments to major stockyards were fairly light today, indicating that feed-lot farmers were refusing to be stampeded into a selling rush that could knock the bottom out of beef prices.

ROCHESTER, N. Y. (AP) — Blonde Diane Marie Waggoner, who insisted she wanted the same punishment as her confessed slayer-boy friend Eugene McManus, today faced an "indetermined" term at the state-operated Westfield Farms at Bedford Hills, N. Y.

UNITED NATIONS, N. Y. (AP) — The United States and Russia were expected to battle orally today on Poland's "peace" resolution, the major Soviet propaganda effort at this session of the United Nations General Assembly.

DANVILLE, Va. (AP) — Former Gov. William M. Tucker, backed by Sen. Harry F. Byrd's powerful state political organization, today was elected to Virginia's Fifth District congressional seat with a margin of almost 5,000 votes over his Republican opponent. With all but 12 of the district's 245 precincts reported, unofficial returns gave Tucker 16,434 votes to 11,940 for attorney Lorne Ross Campbell.

ALBUQUERQUE, N.M. (AP) — An estimated 2,500 employees of Sandia base, the nation's atomic weapons plant, went on strike this morning to support their demands for a union shop and other contract benefits. The strikers included members of the atomic projects and production metal trades council and Local 251 of the Office Employees Union, plus smaller subsidiary organizations.

NEW YORK (AP) — Macy's salespeople turned out to handle spring sale crowds today after a half-day strike over contract demands. Some 8,000 of them, members of the CIO United Department Store Workers union, were granted a \$1.75 a week wage increase, improved pension and sickness provisions. The starting salary was raised \$2.50 to \$38 a week in the agreement approved by the strikers yesterday afternoon.

WASHINGTON (AP) — Defense Secretary Charles E. Wilson has temporarily called back a directive ordering the three armed services to funnel all military information through his own public information office.

WASHINGTON (AP) — Investors who quickly oversubscribed the Treasury's new 3 1/4 percent bond issue will have to wait several months at least for another offering at that attractive interest rate. The Treasury shut off sales of the new 30-year bonds last night after only two days.

RENO, Nev. (AP) — Moslem Prince Aly Khan has been ordered by a Reno court to pay \$48,000 a year for the support of his daughter Princess Yasmin, born to screen actress Rita Hayworth. But legal sources said the order, issued yesterday, would have little effect as long as the prince remains outside Nevada.

WASHINGTON (AP) — Postmaster General Arthur E. Summerfield made it a little easier today for postal customers to mail sealed packages. Henceforth, Summerfield said, they won't have to hunt up a printed label to stick on the packages. Under his new order, all they have to do is write, type or stamp on this inscription: "Contents. Merchandise, may be opened for postal inspection." This inscription, he said, should be placed either above or below the sender's return address.

WASHINGTON (AP) — Senate leaders put on the heat today to speed consideration of the controversial tidelands bill. The Senate resumed debate on the submerged lands bill under threat of night sessions tomorrow and Friday, if necessary.

AUGUSTA, Ga. (AP) — President Eisenhower plans in a major speech Thursday to warn the free world against relaxing its defense effort just because Russia happens to be talking peace at the moment, it was learned today. Mr. Eisenhower will fly to Washington from his golfing retreat here to address the annual meeting of the American Society of Newspaper Editors.

WASHINGTON (AP) — House Republican leaders showed signs today of throwing their support behind Rep. Daniel A. Reed's bill to cut personal income taxes about 10 percent July 1.

WASHINGTON (AP) — Charles Chaplin has voluntarily given up his status as a resident alien—a move which means the actor does not intend to return to the United States, the Justice Department announced today. Chaplin is now in Switzerland. He turned over to State Department officials there last Friday the "re-entry permit" which would have facilitated his return to this country.

WASHINGTON (AP) — Lt. Gen. George H. Decker testified today that the Army got money for ammunition "on time" to head off Korean shell shortages. He blamed the office of the secretary of defense, not Congress.

ORANGEBURG, S. C. (AP) — The family of a young Spartanburg lawyer missing in the Santee-cooper Lake area Friday believed today he had met foul play. The family, Hugh Joe Johnson, 36, has asked Sheriff H. B. Brock to conduct an investigation into his disappearance. Johnson came here to check into the matter.

MASONIC LEADERS — Dunn Masons held their annual Ladies Night Banquet last night in the Dunn high cafeteria. Left to right are: Hugh W. Prince, Dunn's only 33rd Degree Mason, Lester Gilliland of Goldsboro, speaker of the event, and Master Fred M. Byerly, who presided at the banquet. (Daily Record Photo).

Six Killed

(Continued from page one)

drive off the main highway to a side road. That road cuts back southwest through another main supply route," he said. The rebellion began after the landing ship reached Pusan and in all, some 68 trucks bearing probably at least half the 605 Allied prisoners to be returned were in the three convoys. All three convoys were headed for the Communist truce base at Kaesong, near here, where the prisoners will be held until the exchange begins Monday.

SIGHT WRECKAGE

Wreckage of the downed plane was sighted 10 miles from here shortly after noon yesterday by a Washington State Aeronautics search plane. Nine survivors were brought out last night in seven trucks which had been driven to within a quarter of a mile of the wreckage after a bulldozer plowed through a five-foot snow blanket over a logging road to clear a path for the trucks. Earlier, 10 persons were flown out by helicopter before darkness halted airlift operations.

PRaises PILOT

The heroism of the dead pilot was praised by chief aviation pilot, Russ Granger, one of the helicopter operators. "The pilot knew he was in trouble and was settling down as slow and easy as he could," Granger said. "It was good flying that saved those people's lives—at the cost of his and his co-pilot's life."

U N Ready

(Continued From Page One)

last week. As a "concession," they proposed that reluctant prisoners be handed over to a neutral state where they could be "gradually freed" of any fear about returning home. Clark's proposals, in the form of a letter, would be addressed to this request. The decision to nominate Switzerland was said to have been made to head off a Communist move to name Russia or a Red satellite. The Allies also were said to be opposed to any plan that would permit Communist interrogators alone to re-screen prisoners who want to remain this side of the Iron Curtain. Their concern is that the Reds might try their well-known third degree or brainwashing methods to break down the will of reluctant POWs.

Sick Prisoners

drive off the main highway to a side road. That road cuts back southwest through another main supply route," he said. The rebellion began after the landing ship reached Pusan and in all, some 68 trucks bearing probably at least half the 605 Allied prisoners to be returned were in the three convoys. All three convoys were headed for the Communist truce base at Kaesong, near here, where the prisoners will be held until the exchange begins Monday.

SITDOWN STRIKE

U. N. authorities at their base at nearby Munsan viewed the sit-down strike of returning Chinese prisoners as a sign of more trouble. The rebellion began after the landing ship reached Pusan and 24 patients had come ashore in litter or on foot. The remaining 745 refused to leave the deck voluntarily.

Approval

(Continued From Page One)

of cutting spending somewhere or raising taxes in direct action on the floor. As approved by the committee the budget measure proposes spending of more than \$402,000,000 from the general fund compared to estimated receipts of \$379,454,428 in the next two years. The assembly gave final legislative approval, 36-8, yesterday to a proposed constitutional amendment to limit any North Carolina county to one state senator regardless of its population. The measure passed despite vigorous protest by Sen. Fred Rogers of Vance. Royster said he does not represent a populous district but "I will not vote against compliance by the assembly with the Constitution."

Officials

(Continued from page one)

the state only 14 other counties pay their judges as much as \$3,600 a year and most of them pay much less. Many of the counties pay their judges less than \$1,000 a year and some pay even less. The job requires a half day's work on Monday and another half day on Thursday, although sometimes lengthy dockets require additional time. Trial of jury cases is expected to require still more time. The two Dunn court officials based their request for a pay increase on the fact that officials of the Harnett county court received more money than they did. "They ought to be paid for what they do, not on what somebody else gets, and they ought to consider the ability of the town to keep raising their salary," one city official said. "They know what the offices said and if they weren't satisfied with the salary they ought not to have run," he added. This will be the third raise for Judge Strickland. Members of the city council took the position that if the officials thought they were entitled to a raise they should have appeared before the council and stated their case instead of taking their requests through political sources to the State representative. WANTS TO HEAR FROM PEOPLE Rep. Gregory made it plain today that he's not insisting on passage of his bill and said he would

Babson Says Peace Won't Hurt Economy

LAKE WALES, Fla. (AP) — Economist Roger W. Babson said today if the current truce talks are successful he does not believe the end of the Korean war would seriously affect the nation's economy. "I feel there would be some slow-up but it won't be at all serious for the balance of this year," Babson said in an interview. "The government won't cancel any contracts." "It will be a busy year, generally," he added. Babson said the principal changes in the employment figure will be a surplus of white collar workers caused by the Republican administration's shuffling of employees in government bureaus in Washington

Dunn Firemen

(Continued from page one) and its auxiliary for their attendance throughout the year. One point is awarded for attendance at fire calls, drills and meetings. The winner is presented with a badge on the first occasion and if he wins the wards more than once a bar to be suspended from the badge is awarded each time thereafter. third majority, Long indicated he may try again before the session ends.

NEW JUDGES

A House Judiciary Committee gave the green light to a bill to realign North Carolina's superior court districts, adding eight districts. The measure, which has already cleared the Senate, is opposed by the governor, who said it would give too many judges too few terms of court. The House Education Committee planned to vote today on a plan for a state school consolidation policy formula. The measure would prohibit the State Board of Education from consolidating high schools with an average daily attendance of 60 or more. The board could close a school with less than 45 pupils, and might close high school with between 45 and 60 unless the County Board of Education shows that funds are available in the local school district to supplement state funds to maintain the school as a standard high school. The money from the school bond issue, if finally approved by the legislature and the people, would be used primarily to equalize white and Negro school facilities. It would be distributed as: \$25,000,000 by the State Board of Education on the basis of county need. \$15,000,000 on the basis of average per pupil school enrollment. \$10,000,000 as flat \$100,000 grants to each of the state's 100 counties.

City Council To Meet Thursday

Only six minor items are on the agenda for the meeting of the city council tomorrow night, released by City Manager A. B. Uzile, Jr. C. A. Shell is scheduled to appear before the board to determine whether or not the property on which he has a store and drink stand is or is not in the city limits. City Manager Uzile points out that the map of the city shows the property within the city limits, but Shell insists that it was included on the map by mistake. The city council will be asked to decide. H. E. Byrd will appear before the board to ask for a water tap on his property in Erwin. Further discussion will be held on the problem of furnishing gravel for private driveways. The board is scheduled to discuss the procedure to be followed in placing various pieces of property for sale at auction for back taxes. Apey Johnson will appear in reference to a pipe in Juniper Creek, where a bridge spans it now at the edge of Greenwood Cemetery. Pipe would cost an estimated \$28.40 per foot. The remaining item on the agenda concerns driveways at the new soda shop at Ellis and Edgerton.

FENCE POSTS

that last for 30 years!

Farmers report that Koppers posts, pressure-treated against termites and decay, last for more than 30 years. Think of the work saved... the money saved! Koppers posts keep original strength at ground line; therefore, smaller treated posts replace larger untreated posts. See us for fence posts.

Dunn FCX

Support Godwin, Mgr. N. Clinton Ave. Dunn

and elsewhere. But the economist who correctly predicted the stock market crash of 1929 also forecast a gradual decline of prices on the stock market this year if fighting stops in Korea.

For Commissioner WARD III

It has been my privilege to represent the citizens of Dunn on the town board for three terms, 1941-45 and 1951-1953.

During my service on the board, I have endeavored to vote your wishes. I have fought consistently for efficient and economical government.

During my first two terms, I helped bring about a reduction in taxes. During my present term — on last July 28—I voted for a tax cut, but was outvoted.

I believe that Dunn's tax rate is excessive. It is one of the highest in the State. I favor greater exercise of economy and a lower tax rate. I will continue to strive for both.

Briefly, I stand for a more conservative town government. I favor more work and less spending in the city government and a reduction in taxes.

I regret that due to the illness of my wife I will not be able to call on all of my friends personally. But I feel that you are already acquainted with my record and the things I stand for.

Your vote and support in my behalf will be greatly appreciated.
