Ben Douglas To Succeed Ross.

RALEIGH (AP) — George Ross, director of the Department of Conservation and Development, confirmed today that Gov. William B. Umstead has told him he will be replaced July 20 by Ben E. Douglas, former Charlotte mayor.

Ross, who is 65, said his plans for the future were indefinite and that he had no further comment to make. The governor said in his inaugural address that he considers the board one of the state's most important agencies and intends to help it work toward locating new industry in the state.

He asked the 1953 General Assembly to appropriate \$100,000 more for the industries division of the board than had been recommended by the Advisory Budget Commission, and the legislature complied.

Douglas was an ardent Umstead supporter during last summer's gubernatorial race and became known while Charlotte mayor as a chief exponent of new industry for the state.

Paroles Board Is Appointed

RALEIGH (AP) — The new three-man board of Paroles authorized by the 1953 General Assembly was complete today as Gov. William B. Umstead named a former Baptist minister to replace Paroles Commissioner N. F. Handell.

The chairman of the new board will be Dr. Clarence H. Patrick of Wake Forest College. Other members will be Judge W. A. Brant of Wendell and John Matthews of Scotland and Durham counties. They will take office August 1 and serve at the pleasure of the governor.

Umstead had asked in his inaugural address for a three-man commission controlled by the governor. "The number of prisoners," he said, "has grown to the point where it is impossible for one commissioner to conduct adequately the affairs of the parole office."

Mr. Smith presented an original idea and suggestion for improvement of the maintenance of tools and equipment and his idea was adopted by the Army.

He received a beautiful certificate personally signed by Major General Thomas F. Hickey, the post commander.

The certificate reads: "Department of the Army, Suggestion Award Certificate. Official recognition and appreciation is tendered to Dewey C. Smith for the contribution of a beneficial idea which has improved operations." Signed by General Hickey.

In addition to receipt of the Suggestion Award Certificate given him by the Department of the Army, Mr. Smith received a \$50 cash award.

McCarthy Wins Another Round

WASHINGTON (AP) — Sen. Joseph R. McCarthy won a fight today for ironclad authority to hire and fire all staff members of his permanent investigating subcommittee.

The Wisconsin Republican's victory was, in effect, the price the three subcommittee Democrats paid for the removal of J. B. Matthews as a subcommittee executive director.

McCarthy accepted Matthews' resignation last night shortly after President Eisenhower loosed a stinging blast at Matthews' writings which criticized Protestant clergy.

FORCES SHOWDOWN — But McCarthy forced the Democrats to a showdown today on his absolute right to hire and fire all staff members. He won by a 4-3 vote on straight party lines.

McCarthy, so far, has ducked the question of whether Mr. Eisenhower's criticism of Matthews' writing had anything to do with his acceptance of the staff director's resignation.

Witness Ousted

ARNAUD D'USSEAU, a writer, testifies before the Senate Investigations subcommittee in Washington, probing use of Communist books in overseas U. S. libraries. He angrily declared that the hearing was being conducted under Sen. Joseph McCarthy's "town ground rules" and that the procedure was "like shooting fish in a barrel." D'Usseau refused to say whether he was or ever had been a Communist. Sen. McCarthy finally called two Capitol policemen to remove the angry witness.

WASHINGTON (AP) — Congressmen generally voiced hope today that the purges rocking the Kremlin will lead to the collapse of the Communist regime and an end to the Soviet threat to world peace. They said the dismissal of Secret Police Chief Lavrenti P. Beria indicated deep dissensions in the Russian hierarchy that the West would be quick to exploit.

WASHINGTON (AP) — Americans saved \$2,500,000,000 during the first three months of 1953, more than in any other first quarter since World War II.
