## Republican Solons Review Progress

WASHINGTON (AP) — President Eisenhower wound up his first six months in office today with his over haul of the government well underway, a Korean truce apparently at hand and the budget trimmed but not balanced.

It was just a half a year ago the former general took the inaugural oath and launched the nation on its first Republican administration in 40 years.

Acting GOP leader in the Senate, William F. Knowland, said there has been "great progress" and the party would have a "real record of accomplishment" to show in the 1954 congressional elections.

**"MAGNIFICENT JOB"**  
House Republican Leader Chas. A. Halleck told reporters the 83rd Congress, in cooperation with the President, had done "a magnificent job in meeting the necessities of the times."

**"FAILURE" SAYS DEMOCRAT**  
The Democrats were not quite so enthusiastic. In the view of House Democratic Whip John W. McCormack, the first session of Congress had been a "failure" in keeping GOP promises or producing the President's program.

## Leaders Aiming For Congress To End On July 31

WASHINGTON (AP) — Republican congressional leaders said at the White House today they are still aiming for a July 31 adjournment but told President Eisenhower they will extend the session of necessary to complete the program.

They listed these things which "must be done before we get out." Pending appropriations bills, Reciprocity Trade Act extension, oil rights in the outer continental shelf emergency relief legislation, higher postal rates, farm credit extension, military public works authorizations, a small business loan agency, Senate ratification of five treaties on commerce and navigation and an agriculture surplus disposal measure.

Acting Senate Republican leader William F. Knowland said those are "priority" bills but others may also be run through "if we have time." He said the others conceivably could include Hawaiian statehood and legislation on disposal of government-owned synthetic rubber plants.

**CAN BE MET**  
Both Knowland and House Speaker Joseph W. Martin Jr. said Congress can meet the July 31 deadline if it wants to.

"Of course it would mean we would have to step on the gas," Martin said. "It would mean more action and less talk." Martin and Knowland have no secondary target date for adjournment because they think the July 31 goal can be met. But they said they are prepared to hold Congress until all "must" bills are cleared, no matter how long it takes. Knowland said if he needs to call Senate sessions to start as early as 9 or 10 a.m. and continue until midnight for the next two weeks.

**Wheat Voting Set For August 14th**  
Kyle Harrington, PMA supervisor for Harnett County, said today that the U. S. Department of agriculture has notified him that a wheat referendum will be conducted on August 14.

Farmers will vote on that date whether or not to have marketing quotas on wheat.

In 1953, Harnett County farmers seeded 6,673 acres of wheat.
