The tax would be paid by properly-owners of the city. Even a family owning a modest home valued at only \$5,000 would have to pay approximately \$5 a year more taxes is subjort the program.

In just the years time, based on the first years budges, the same amount of money could be used to establish a \$80,000 recreation center here. No major permanent improvenients are indicated in the budget set tip.

City Commissioner J. Leon Godwin warned that a racial problem may enter into the recreation program, which would complicate matters still more.

STATEMENT RELEASED Following is a statement released today by Chairman Roy Lowe of the recreation commission:

Working with the North Carolina Recreation Commission the Dunn Recreation Commission in a come tip with the following proposed expenditure scale:

\$12,05 is the total over-all Budget. This will give the children and the acults of Dunn a real Recreational program which will pay heavy dividends to the community in the years to come.

How much will this program cost me? That depends of course on the amount of taxable property which you own. There is a strong feeling, of course, that the Board of Commissioners can absorb the cost within it's present tax structure.

But if they can't and the total amount would be added to your tax bill this is how it would run:

If you paid \$15 in City taxes last year, your increase would be 90 cents.

If you paid \$25 in city taxes, your

last year; your increase would be 90 cents.

If you paid \$25 in city taxes, your increase would be \$1.50.

If you paid \$50 in city taxes, your increase would be \$3.00.

If you paid \$100 in city taxes, your increase would be \$6.00.

If you paid \$200 in city taxes, your increase would be \$12.00.

If you paid \$500 in city taxes, your increase would be \$12.00.

If you paid \$500 in city taxes, your increase would be \$30.00.

"Is it the gospel of the Master who had 'nowhere to lay his head' or is it the gospel of Wall Street and Texas oil millionaires?"

Home Lost

Continued From Page Ones ond home caught fire again when clothing that had been moved from the house in the afternoon ignited.

Lee said that it was thought that sparks had landed in the foothing in the afternoon, and that they smoldered from around 4:30 until the fire broke out at 7:30. However, slight damage was done by the second fire.

The homes were all owned by Dr. W. W. Stanfield Aremta Ray. Negro woman, and Marshall Roberson, also Negro, lived in the two apartment house that was destroyed Friday afternoon Sally Faison lives in the other home which was damaged Friday afternoon and evening.

Fire began in the apartment occupied by Aremta Ray when an oil stove which she was refueling exploded. The flaims were swepthrough the one story frame house by the strong wind, and would have burned out many of the houses in Pope Bottom had the wind, not died down a few minutes after the fire began.
