

# BULLETINS

(Continued from page one)

der control throughout the world during the next 20 years. Dr. Harold H. Henderson, general secretary of the American Leprosy Missions, spoke yesterday at the final session of the organization's 46th annual convention.

**HANOI, Indochina (P)**—The Communists today tightened their ring around "several" battalions of French Union troops cut off at an artillery post from the main Dien Bien Phu garrison. The outpost, under heavy artillery fire, lies three miles south of the main fortress and offers the hope of an escape route should the French give up the 48-day battle and try to reach a relief column at Muong Khoua, 35 miles to the southwest.

**RALEIGH (P)**—The State Supreme Court has ruled that a trucking company was not negligent in a tank-truck explosion which killed four young Nash County boys. The court said yesterday that the case was a "stark, heartbreaking tragedy" but upheld the ruling of Superior Court Judge Malcolm C. Paul who had dismissed \$75,000 damage suits against the A. F. Comer Transport Service.

**RALEIGH, N. C. (P)**—Former Gov. W. Kerr Scott has come to the aid of the United Daughters of the Confederacy in their campaign to have muster rolls of the Confederate Army returned to Southern states from Washington. Scott said here yesterday that, if elected to the U. S. Senate, he would introduce legislation to return the records to the individual states. He said he would recommend that documents pertaining to North Carolina be kept in the office of the secretary of state or the Department of Archives and History.

**BONN, Germany (P)**—Chancellor Konrad Adenauer of West Germany said today that Soviet Russia wants to push the United States out of Europe to seize control of the entire continent.

He warned the free European nations to unite or die. "Everywhere in the countries of the West, we can see Soviet attempts to undermine states, to paralyze them by threat, fear and terror, and to win them by promises and propaganda maneuvers," Adenauer told Parliament.

**CAMP KILMER, N. J. (P)**—A bold holdup man robbed the post exchange here of \$6,552 last night after trussing up the manager and selecting an Air Force traveling bag to carry away his loot. The manager, James Beattie, 61, of Dunellon, N. J., said the robber entered the exchange at gunpoint shortly after it closed at 11:30 p. m. EST., coolly ordered him to gather the money from various cash registers, and then bound and gagged him.

**HEIDELBERG, Germany (P)**—The U. S. Army disclosed today it had bolstered its atomic striking power in West Germany with a total of five "atomic" artillery battalions. An official spokesman at the Army's European headquarters said the Army now "probably" has 30 of the giant 280 millimeter cannon in Germany. There are normally six in each battalion.

**NEW YORK (P)**—Attorney General Herbert Brownell, Jr., disclosed officially Wednesday night that the Justice Department plans an anti-trust investigation of the auto industry. Brownell said the department wants an "explanation of the developing pattern of concentration in the automobile industry."

**FT. BRAGG, N. C. (P)**—First planes of a cross-country airlift brought troops of the 37th Infantry Division from Camp Polk, La., before dawn today to take part in "Exercise Flash Burn," the Army's vast atomic war maneuver. Planes from Donaldson AFB, S. C., left Alexandria, La., late last night to bring the main body of the division here to join the 145th Regimental Combat Team, a part of the division already in action.

**MANCHESTER, N. H. (P)**—Gen. Douglas MacArthur makes his first public speech in two years tonight when he becomes an honorary New Hampshire "Whooper." "Whooperism" is the name of Gov. Hugh Gregg's program calling on residents to "whoop it up" about the Granite State's natural assets and facilities for industry and recreation.

**NEW YORK (P)**—The American Cancer Society today presented a representative sample of the 74,000 who are saved annually from death from cancer in the hope of saving another 74,000 who could be saved but aren't. To cancer experts, the great American tragedy is that so many people ignore the "seven danger signals" and pass automatically from the people who could be saved into those who can't be.

**WASHINGTON (P)**—President Eisenhower called his National Security Council into secret session today to discuss measures the United States might take to deal with the grave crisis in Southeast Asia. Mr. Eisenhower scheduled his weekly news conference more than an hour earlier than usual to clear the decks for the possibly historic meeting of the policy-planning council.

**WASHINGTON (P)**—Administration forces denounced as dangerous today a proposal to ban on presidential action to send troops to Indochina. They predicted the House would defeat it. Rep. Frederic R. Coudert, Jr. (R-NY), sponsor of the ban, was under pressure to withdraw it but said he did not intend to do so. He sees the proposal as a "great opportunity" for Congress to reassert its right to make war.

**WASHINGTON (P)**—The House Rules Committee appeared likely to clear the way for the first House vote on the St. Lawrence Seaway project in the more than three decades it has been before Congress. Chairman LeB. E. Allen (R-MI) scheduled a rules committee vote on the Senate-passed seaway bill today and predicted it would win approval.

**WASHINGTON (P)**—Russia has a "ready-made spearhead" of armored divisions in East Germany that could strike the West at a moment's notice, diplomatic officials today. The high officials, whose information is as authoritative as any in any Allied hands, also said Russia and its Red satellites in Europe now have more than 6,000,000 men under arms backed by a "strong capacity" in weapons and guided missiles.
