HAPPY MONTH OF JUNE LIVES UP TO ITS REP

There was sadness in Dunn Saturday when news came over the teletype machine that Senator Lester Hunt of Wyoming had killed himself.

On their last trip to Washington, Dunn's Kneepanters Leaguers were entertained royally by the pleasant, white-haired westerner.

When the news came in we phoned Chief Kneepanter Herbert Taylor to tell him about it.

Mr. Taylor was both shocked and grieved and recalled how nice Senator Hunt had been to his boys and others in the Dunn group.

"There's a picture hanging over my desk right now," declared Taylor, "of Senator Hunt showing little Zerkie Rusk how to swing a bat. He was a charming man, a prince of a fellow; this is really disturbing news."

The Kneepanters were scheduled to see Vice President Barkley that morning. The VECP was called a way, however, and had asked Senator Hunt to pinch - hit for him.

Mr. Taylor was an old ballplayer himself and seemed to take an unusual amount of interest in the little Dunn ball players.

People Asked To Join Fight Against Reds

TEGUCIGALPA, Honduras (P) — Anti-Communist forces today set up a rebel government for Guatemala in an unidentified captured city.

Its leaders issued a communique stating that the invasion of the country and the march on its capital at Guatemala City by forces under command of anti-Red leader Col. Carlos Castillo Armas, has overrun "several important cities" and is proceeding against little opposition.

The anti-Communist junta claimed no serious armed clashes have developed, because it commands the support of 90 per cent of the Guatemalan people.

Reports that the "invasion" is being carried out with little or no fighting was confirmed in Washington where the State Department said officially the situation does not, for the present, necessitate the evacuation of 1,200 Americans.

The anti-Communist coordination committee, in the new capital, said the armed forces under Castillo have appealed for recognition as belligerents under international law.

An appeal was made to the people to join the uprising aimed at ousting the Red-tinged regime of President Jacobo Arbenz Guzman.

The rebel government announced over the signatures of Carlos Salazar, Luis Valladares, Domingo Golcoles and Luis Corado Lira, also urged the army to join the anti-Communist forces.

It denied the rebel air force had bombed or strafed defenseless cities and said attacks had been made only on government oil dumps.

Lillington JCs Work On Park

Lillington Jaycees, already committed to plans to convert the area behind the Lillington Community Center, into a park have engaged the aid of John Harris of Raleigh, N. C. Extension Service Landscape Specialist.

Harris and his brother, Fred, recently met a committee from the Lillington Jaycees headed by Bobby Chaffin, second vice-president, at the park site and discussed future improvements.

Harris, widely known as the "Tar Heel Gardener" because of his series of weekly radio talks over a Raleigh station, appeared to like the unusual terrain of the site and found it an interesting challenge.

Committee members toured the area with the Harris brothers and pointed out various points and explained the general ideas and wishes of the club.

Harris is scheduled to give a detailed estimate to the civic club on the cost and most practical methods necessary to give Lillington a public park designed to meet long range demands of all age groups.

Mother And Two Children Die In Torch Murder

FORT WILLIAM, Ont. — Police awaited the results of three autopsies today for evidence that a mother and her two small children were the victims of a torch murder.

Provincial police said the mother's hands had been tied behind her back and another rope had been tied around her neck. Burned fragments of rope were found on her wrists and throat.

More Smokers Die From Cancer Ills

SAN FRANCISCO (P) — A "chain of circumstantial evidence" shows that more men who are regular cigarette smokers die of cancer and heart diseases than non-smoking men, a report to the American Medical Assn. convention said today.

However, this may not be true in women because they do not smoke as much when older, the report said.

Smoking was indicated to be most harmful to regularly-smoking men between 50 and 70 years old, with their death rate as much as 75 per cent higher than their age equals who don't smoke.

The report is the result of a two and a half year study by Dr. E. Cuyler Hammond, director of the American Cancer Society, and Dr. Daniel Horn, assistant director.

The study was conducted in nine states and dealt with nearly 200,000 men between the ages of 50 and 70.

No Positive Evidence The report was based on the deaths of 4,854 of the 187,776 men actually observed during the 30-month period beginning in November 1951.
