### Call Girls Not A Deductible Item

WASHINGTON (AP) — The Internal Revenue Service takes a dim view of taxpayers who try to charge off as a business expense the cost of "call girls" for entertaining customers.

The Internal Revenue Commission's T. Coleman Andrews told a subcommittee today that the IRS is nevertheless made in some instances. He cited the case of a corporation executive who attempted to deduct as a business expense \$48,000 for "call girls." The service disallowed this and other expense items such as \$33,000 for hotel rooms and services, \$10,000 for the use of furs, automobiles and cash,

Facilities for the industry were provided by the newly organized United Enterprises, a group of six widely scattered citizens interested in increasing industrial development in this area. O. W. Godwin, Sr., president of the industry, is president of the newly organized United Enterprises.

Among the many cases cited of improper deductions were those for "royalty expenses" paid by a corporation president to his "lady friend," vacation and pleasure trips abroad, expense of hunting lodges, yachts and summer homes. One taxpayer went to Africa on a big game hunt, and sought to charge off the cost as an advertising expense. And there was the case of a funeral director who sought to charge off the costs of his groceries on the grounds that his wife "contacted potential customers" in the grocery store.

He'll be eating bananas only for a week or more.

Dr. Pearce kept one of the big teeth by a surgeon and "he paid payment on the fee." The baboon is valued at nearly \$1,000. (Daily Record Photo.)

Flanders said any senator would find "an inexhaustible mine of incidents" from which to draw his own bill of particulars against McCarthy.

"This sad affair" of censuring McCarthy, he said, raises "a major question" — "who is going to prosecute Communists if the senator's operations have the shadow of censure cast over them." "The answer is simple," he added. "There will be no loss at all to the anti-Communist campaign. The senator's contributions have been minor and comparatively unimportant."
