HAPPY CROWD — These smiles mean that after eight long, hard months of cooperative efforts, the stockholders of the Lillington Industrial Development Company have brought their dreams to reality. Here are some of the stockholders as they met Friday night in their new \$135,000 industrial building to push the final stock sale necessary to finish payments on the building. No money was borrowed to buy the land or to build; all costs of construction will be met by sale of stock. The Lillington Garment Company, makers of men's sports shirts, already are occupying the handsome new structure, one of the state's finest. Date of appropriate dedicatory ceremonies and an open house will be announced later. W. A. Johnson, (center, front row in light suit) was chosen president of the

company to spearhead the long drive which represents the combined efforts of the majority of Lillington citizens. Other stockholders shown at the Friday night meeting, are, front row: Henderson Steele, Ray Johnson, Selwyn O'Quinn, Grayson Biggs, Billy Sexton, President Johnson, Johnny Wilbourne, Ray Womble, W. HE HAS IT EASIER

SAN CARLOS, Calif. (AP) — John Borchering, a San Mateo policeman, decided today he has a safer job than his wife, Jean.

Mrs. Borchering works for a San Carlos electric company as an assembler of electronics devices. When quitting time came she happened to be standing in the way of 200 fellow employees.

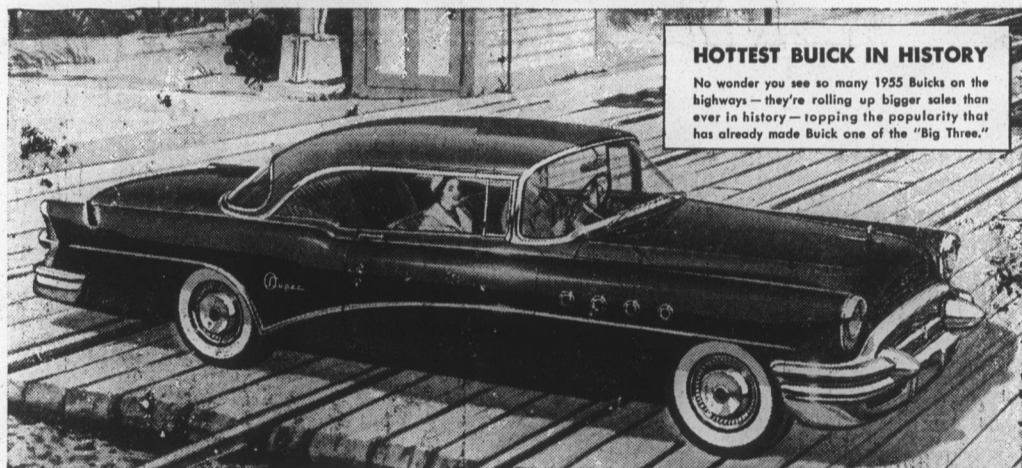

Bowled over in the rush, Mrs. Borchering was knocked unconscious and suffered cuts and bruises.

Even the bumps are smoother in the '55 Buick ride

HOTTEST BUICK IN HISTORY

No wonder you see so many 1955 Buicks on the highways — they're rolling up bigger sales than ever in history — topping the popularity that has already made Buick one of the "Big Three."

To be honest — there are some bumps which *nothing* will level out completely. Yet even the real rough ones turn out a lot smoother when you're in a 1955 Buick.

And that's not just our say-so. New owners of these new beauties keep telling us that. So you may wonder—how come? What's different about the Buick ride that makes it such a marvel? The answer is—plenty.

Most cars have coil springs on front wheels only. Buick has them *all around* — and this year they're newly calibrated for even deeper smothering of bounce and jar. So here your ride is balanced, buoyant, level, serenely smooth.

Most cars drive through the rear springs. Buick drives through a *torque-tube* that takes up all driving thrust, wipes out rear-wheel wiggle and wag, steadies your going to a sure and solid track.

And no other car in all America has these great comfort extras *plus* the backbone of a massive X-braced frame *plus* both direct and lever-type shock absorbers to snub after-

bounce *plus* a special front-end geometry to stabilize "cornering" *plus* tubeless tires on extra-wide rims for softer, steadier riding. Surely, you owe it to yourself to *try* this great Buick travel, just to judge things for yourself.

You'll find it the nearest thing to velvet on wheels—and made even more so by the silkiness of record-high V8 power and the absolute smoothness of Variable Pitch Dynaflo.* Come visit us this week—for sure.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.
