Declares She's Not Immune If She Attacks

TAIPEI, Formosa (P) — Secretary of State John Foster Dulles warned Communist China today at opening of his crucial conference with Chiang Kai-shek not to assume they were immune from American attack if they assaulted Quemoy or Matsu islands.

Dulles conferred with Chiang for four hours and then took off for Washington after warning the Peiping regime to "practice what they preach" about peace and cease their threats against Formosa. "It is the ardent hope of the United States that the Chinese Communists will not insist on war as an instrument of its policy," he said. "The United States and the Republic of China have no alternative but to stand firm."

SIGNS DEFENSE PACT He made the statement within hours after he and the Nationalist Foreign Minister George Yeh signed the ratification papers putting the U. S.—Nationalist China defense treaty formally into effect.

Dulles said President Eisenhower himself would make the decision what to do if the Communists attack the Nationalists two main offshore islands.

Funston Tells Senate Stocks Are Healthy

WASHINGTON (P)—G. Keith Funston, president of the New York Stock Exchange, said today a man with money in the stock market has nothing to fear except himself.

The lead-off witness in a full-scale Senate investigation of a current stock boom, Funston invited millions more Americans with the cash and the sense to use it to come in and buy stocks.

The stock market is healthy, he said, and the 1929 crash isn't likely to be repeated. He credited the boom to the fact that the public feels business is good and the future is bright.

"It is true that some of our citizens may act unwisely and suffer loss," Funston said in a prepared statement. "But most will act in- telligently and prosper. We cannot hope to protect each imprudent investor against himself."

A "FRIENDLY" INQUIRY On the eve of the Senate investigation, the bull market closed Wednesday in New York at new highs. This continuing boom prompted the "friendly" inquiry by the Senate Banking Committee, headed by Sen. J. William Fulbright (D-Ark.). The committee wants to know whether the market is on a boom and bust cycle. Funston emphasized that mem- (Continued On Page Two)

"I'm to blame for it all," she said after she and her 32-year-old daughter, Ruth, were arrested yesterday on conspiracy charges. "I don't know why I made such a foolish move. My daughter had nothing to do with it." The women were freed on bonds totaling \$3,500. Police Capt. H. T. Fowler said the Blattners had had years of domestic troubles and Mrs. Teitelbaum, who came here three months ago from Belmar, N.
