TWO HELENS, PAT, FISH, RADIN AND DOT ELMORE

Congressman F. Ertel Carlyle is really looking after Harnett County. Right after he named Frank Campbell of Dunn as an alternate to West Point, along came the announcement that he has named Robert Edward Lee of Dunn, Route 2 as his principal nominee for appointment to the first class of the U. S. Air Force. At the same time, our distinguished congressman is fighting hard to get a bill through Congress to set up a memorial here to Gen. Bill Lee. Citizens of the Seventh District have a right to be proud of the able representation he's giving them in Washington. Buck and Hank Curran both married girls named Helen, and both are in public life. Buck's Helen assists him at the tobacco warehouse and Hank's Helen is county tax lister for Averasboro. They're both very popular young ladies—and pretty, too. District Solicitor Jack Hooks says Ruby Tart's bootlegging case definitely will be tried at the March term of court. After spending so much time worrying about financing the new Benjamin ad Johns building, directors of Dunn's chamber of commerce last night turned their attention to the chamber's finances. Manager Ed Carroll says the chamber treasury is low—mighty low—and he'd appreciate it greatly. (Continued On Page Two)

FBI Agent Freed In Assault Case

Robert B. Hurley, a FBI agent stationed at Fayetteville, has been cleared in Federal Court on charges of falsely arresting and assaulting a Harnett County man.

Federal Judge Don Gilliam of Tarboro ordered the FBI agent acquitted after the evidence in the case in U. S. District Court at Raleigh.

The charges were brought against the officer of Lakin Nuckel Crissman of Broadway, Route 2, who is awaiting trial in Federal Court later this month at Rickinghama for violating the Selective Service Act.

The accused draft-dodger charged in his warrant against Hurley that he and another officer went to his home and placed him under arrest without a warrant, and that Hurley drew a gun on him without

of Detectives in Detroit, telling him that the couple's had secured writ of habeas corpus and that a hearing had been set for Friday, April 8.

DELAYING TACTIC District Solicitor W. J. Kenly conferred with the governor's office and other Detroit authorities, advised that the habeas hearing was delayed because the fact that the president had just left town for a month.

Solicitor Hooks and Moore said they were to Detroit, if necessary, at the hearing to detain the soldier.

Thomas Sued For \$100,000

A suit for \$100,000 damages has been filed in Harnett Superior Court against Herb Thomas of Olivia, nationally-known stock car racing champion and operator of a saw mill.

The suit was brought by Pete Allen, a former employee who alleges that his right leg was smashed because of Thomas' failure to replace a defective edger belt at the sawmill.

He claims he never again will have full use of his leg.

Allen charges in his complaint that on November 21, 1953 he told Thomas the belt was defective but that Thomas refused to put on a new one.

"That belt will saw 100,000 more feet of lumber," the employee alleges that Thomas told him at the time and refused to discard the defective belt.

Allen contends that Thomas then put the mill in operation and that later the same day the belt broke and smashed his leg as he was at his work.

The plaintiff alleges that his medical expenses have already cost him \$1600 and that he is still having medical expenses. He claims permanent injury and sets out in the suit that he never again will have full use of his leg.

Full-Course Meals For Only A Dime

GARDENA, Calif. (AP)—Hungry Southern Californians trooped to this small poker-playing community today to take advantage of a strange price war in which full course meals are selling for 10 cents.

Gardena, a small town on the outskirts of Los Angeles, has legal draw poker, and its lavish card houses provide the town's major industry.

Competition between the card palaces started a price war over the cost of lunch and dinner. One club offered 50-cent meals to anyone who sat at the poker tables. The Embassy Club quickly followed with the 10-cent meal to anyone who asked.

By noon Thursday, prospective diners were lined up outside waiting to eat for a

At Ann Arbor, Michigan, the polio researchers, including Dr. Salk, for whom the vaccine is named, now are busy compiling results of sample tests given last year in selected test areas throughout the United States. If the result of their findings due to be made public in April, show that the vaccine appreciably influences immunity to polio, the vaccine will be made available to state and local health departments.

However, Dr. Hunter pointed out that the number of requests for the vaccine will determine the amount each county will receive.
