Take your problems to Church this week

— millions leave them there!

LET YOUR CHURCH BE YOUR TRANSFORMER

The electric transformer performs an important function in the use of electric energy for power, heat and light in the home and in industry. Electricity can be transported long distances, from its place of generation, only by the use of high voltage, voltage that would be dangerous to use in machine and home appliances. The transformer makes the electricity usable after its long trip by stepping down the voltage.

The Church serves an equally important function in our lives, as the transformer does in the field of electricity. It serves as a governor to regulate our thinking and habits that we may live in peace and harmony with one another.

There is a church in your community that will fill your needs. Find and attend it with consistency.

A long range point of view must be taken too of inculcating the habit of regular Church attendance; so that they may understand the true meaning of religion and will early learn that material comforts are not enough without the spiritual uplift of the Church.

Take Your Family To Church Sunday
