Club Women Meet In Dunn

The Dunn Business and Professional Women's organization, a five-year-old club in a district where some of the club are 20 or 25 years old, played host to member clubs from seven towns on Sunday.

State and district officers were present for an important luncheon meeting, including a panel discussion, at Johnson's Restaurant. This was the semi-annual district meeting of the BPW.

Mrs. Lina B. Ennis, 611 North Ellis Ave., Dunn, the local president, said the panel discussion had high interest for local members and should stimulate activity here by the organization.

"We're kind of young yet, and just getting on our feet," said Mrs. Ennis. "I think this meeting has definitely been a help to us. New members are being sought for the Business and Professional Women's club here—especially this week. Sept. 25 to Oct. 1 marks BPW week nationally."

City May Take Action On Mosquitoes

If the cold doesn't set in soon and rid Dunn of its mosquitoes, the city may have to do something about it, Mayor Ralph Hanna said today.

The possibility of spraying on a large scale to get rid of the pests will be a topic at the next city council meeting on Thursday evening.

Mayor Hanna said he has asked City Manager A. B. Uzzle to look into the feasibility of spraying. At the Dunn health center, Dr. A. B. Hunter said he believed the local mosquitoes to be just pests at the moment, but there is always the possibility of contracting disease from them, he said.

A letter which arrived at the health center today reported a number of cases in North Carolina counties, including Sampson, of equine fever. All the cases are confined to horses so far, said Dr. Hunter, but equine fever is known to spread to humans, and sometimes is fatal.

No cases of equine fever have been reported in Harnett County. In Indiana, doctors are fighting an outbreak of sleeping sickness which has already killed seven, and is believed to come from carrier mosquitoes.

The sweet potato market of Dunn — only an idea seven months ago — will open tomorrow. Between 9:30 and 10 o'clock, the auction market will get underway.

Manager Ed Carroll of the Chamber of Commerce announced today that "there'll be a little ribbon-cutting" to celebrate tomorrow's opening.

Carroll stated earlier, when a group of the South's largest sweet potato buyers formed the Dunn Produce Auction Company, that within a period of a few years, Dunn could have a ten million dollar market.

Thousands of acres of yams are grown in this area, and Carroll said Dunn has the potential for becoming the world's largest sweet potato market.

The Dunn Produce Auction Company was formed on Sept. 9. Since then, an auction mart has been construction on North Clinton Ave. near the old oil mill on property owned by Nathan M. Johnson, Sr., executive vice president of Johnson Cotton.

North Carolina's largest and best known yam buyers are included among the incorporators.

R. C. Cannady of Four Oaks is president of the corporation. Vice-president is H. R. Corbett of Wilmington. D. Heber Johnson of Benson is secretary-treasurer.

Linda Hears From Gov. Hodges Again

Linda Strickland, 12-year-old Dunn 7th grader who tried once before to get Governor Luther Hodges to tell her what he thought about children expressing opinions on political affairs, succeeded the second time.

Her recent newest letter to the Governor, dispatched when the answer to the first seemed inadequate, brought this reply:

"Dear Linda... I do think children are right to express their opinions on political matters, and I am sure you will do so."

Linda is the daughter of Mr. and Mrs. L. H. Strickland of 103 South Washington Avenue.

Already Feels Good Enough To Resume Golf

DENVER, Colo. (AP) — President Eisenhower's top heart specialist said today prospects are "reasonably good" for the President's complete recovery and that barring unforeseen complications he should be able to run for his second term.

Dr. Paul Dudley White of Boston said the President's condition is so satisfactory that he flew back to Boston today.

For the first time since he entered Fitzsimons Army Hospital Saturday afternoon, the President was removed from an oxygen tent for brief intervals today.

Dr. White told newsmen that as of 11:00 a. m. EST, "The President's condition continues to be satisfactory without complications."

White's bulletin said the President "enjoyed a breakfast of fruit, oatmeal, a soft boiled egg, toast and milk."

It was the most the President had eaten since he was stricken early Saturday morning. The heart specialist told newsmen the President will not be able to engage in any strenuous activity for two months and probably should remain in a hospital for at least two weeks and possibly a month to insure complete rest.

President Eisenhower, it was disclosed, had a slight fever late yesterday, but White said this is "according to Hoyle" for that stage of a heart attack.

The gray-haired mustached Boston specialist who flew here yesterday, gave reporters the first detailed, technical explanation of the President's illness in a news conference at the temporary White House at Lowry Air Force Base.

"AVERAGE CASE" — He described the President's attack as an "average case" of coronary thrombosis. President Eisenhower's morale is "excellent," White said.

The bulletin continued to say: "The President had a slight fever late yesterday afternoon, as is usual in such cases, but his temperature is normal this morning."

The oxygen tent will be omitted (Continued on Page Two)

Gloria Tells About Life In Gay Paree

By GLORIA SWANSON Written For The United Press

PARIS (AP) — I fell into the gutter! A spectacle unbecoming a "movie star," a "glamorous grannie," or even a "lady."

Now of course, my social plans for the week and gadding about must wait — although I've ordered crutches.

From my bed I can see the Eiffel Tower and, if I stretch my neck a swan's length, the Arc de Tri- bunes, just a nasty sprained ankle. (Continued on Page Six)
