ELDORADO SEVILLE: Setting a new trend in hardtop styling is Cadillac's Eldorado Seville, a new body style presented for the first time for 1956. The car's finely tailored roof panel, custom trimmed in padded Vicodex material, blends smartly with the characteristic Eldorado swept back fin effect and new oval exhaust ports. The Seville is powered by a newly developed 305 horsepower engine and features Cadillac's "controlled coupling" Hydra-Matic transmission which is completely new in principle.

NEW OLD-TIMER—John E. Peters, retired farmer of Inman, Kan., steers the pint-sized reproduction of an old-time Rumley steam thrasher machine tractor which he made from scrap and junk. Coal is used to fire the boiler and with full steam up, the thrasher will move about four miles per hour. The whistle, governor, steering wheel and wheels were made from old tractor parts; the boiler from oilfield pipe; smokestack, coal and water bins from tin, and tires and belts from salvaged tires and tubes.
