House Is Set Fire By Blaze Near Denver

DENVER (AP) — A crippled Air Force B 25 bomber narrowly missed houses and crashed and burned in a heavily populated suburban area today, killing four of the eight persons aboard.

One house was set afire by the flames. The four survivors, one of them a member of the Women's Air Force, were hospitalized at Lowry Air Force Base.

The twin-engined plane had taken off at 6:59 a. m. MST from Lowry for Tyndall. Two minutes later the pilot radioed he was having engine trouble.

The plane crashed seconds later in the heavily-populated suburban area immediately southeast of Denver. It narrowly missed four houses.

Its right wing missed one house by 24 inches, knocking over a stack of cement sacks and grazing a pickup truck parked in the yard.

All the homes were occupied and people were in some of the yards, but no one on the ground was even scratched.

One home was set afire but the flames were quickly extinguished. The plane's tail section, the only recognizable piece after the aircraft had plowed across some 200 yards of open ground, came to rest within a dozen feet of another house.

Warren was also found guilty of a charge of assault with a deadly weapon with intent to kill growing out of the shooting and was sentenced to two years imprisonment.

Mrs. Warren was shot to death at a drive-in Tuesday night around midnight when she emerged from a car to go to a rest room. Warren stepped from behind the building and fired at least seven shots from a pistol, hitting her above the heart and severing the main artery.

Mrs. Warren had been in the parked car with Harvey Bowles of Thomasville and her brother, Virgil Hill. The charge of assault against Warren was made by Bowles. Warren was the victim's fourth husband. She has a 19-year-old daughter.

Dockers Give Up Gold-Plated Car

LONDON (AP) — Sir Bernard and Lady Docker gave back their three gold-plated limousines to the Birmingham Small Arms Co. today but announced they would fight a company decision to fire him as head of the 75 million-dollar industrial empire.

It wasn't the money, Sir Bernard explained. It was the principle of the thing. He still retains the directorships of 14 other companies and is in such a high income tax bracket that loss of the job will amount only to four cents a year.

The Birmingham Small Arms Co. makes everything from Daim-

ler limousines—frequently used by royalty—to bicycles, buses and guns. As chairman and managing director of the company for 18 years Sir Bernard rated three gold-plated Daimlers, one upholstered in zebra skin.

Lady Docker, who holds a British amateur marbles championship, was once quoted as saying (Continued On Page Seven)

Woman Goes To Prison For Leaving Children

A 33 year old mother, Mrs. Lena B. Bryant, pled guilty in Harnett Recorder's Court on Thursday to abandoning her three minor children. She was sentenced to 15 to 18 months in Woman's Prison by Vice Recorder L. M. Chaffin, who was on the bench. Solicitor Neill Ross prosecuted the cases which were all dispatched shortly after noon.

The defendant who had been living in Miami, Fla., voluntarily waived extradition and was returned on May 11 to the county to stand trial.

HUSBAND IN PEN

In a warrant issued on March 25, Mrs. Lucille B. Coats had charged that Mrs. Bryant had abandoned two teen age daughters and a nine year old son. A report on the case, made by welfare authorities at request of Judge M. O. Lee, showed that the children had been receiving aid to dependent children grants while their father, Jack Bryant, was in prison.

Later, the report went on to say, the welfare department had received information the children had been absent from school, reports that the mother had been drinking excessively, and later abandoned her family. The children became wards of the juvenile court and were assigned to the welfare department custody.

However, the father was discharged from prison in January the court was informed. He now provides support for the children who live with Mrs. Coats and all grants have been discontinued.

ADMITS LARCENY

Wright Gray Watson, 16-year-old Negro boy of Fuquay Springs, Route 2 who allegedly stole some phonograph records from the home of Zola Matthews was sentenced to 12 to 15 months on the roads. The young boy submitted as guilty to forcible trespass. He had first been indicted for the more serious offense of breaking and entering and larceny.

Donnell Miller, a young Negro who lives in the Benhaven community, was found guilty of simple assault on Frank Meinnon, another Negro. Miller was sentenced to 30 days in the county jail and payment of the dollar fine and costs. McKinnon said Miller conked him on the head with a pepsi-cola bottle after forcing his way into his house. Miller counted with the excuse he had gone there seeking to collect money due him. He said that in the argument the two traded fist blows and admitted teaching for the soft drink bottle.

"The bottles were all around the house" explained Miller in answer to a question of the judge as to (Continued On Page Two)

Joan Pays Hubby Off, Gets Divorce

HOLLYWOOD — Pretty British actress Joan Collins divorced her actor husband, Maxwell Reed, today after agreeing to pay him a \$4,250 property settlement and let him keep the \$1,400 they have in the bank in London.

Joan figured that was cheap. Reed, an unemployed actor, had sued for \$1,250-a-month separate maintenance, claiming Joan earns \$1,000 a week. Reed agreed to drop his claim.

Joan testified in Superior Court that they had been separated for two years. She said she described her big blue eyes and heart-shaped face as ugly, was rude to her and told her she didn't know how to act.

They were married when she was 18. Now 23, Joan's newest heart-throb is Arthur Loew Jr., who used to squire Eartha Kitt.

IKE'S BOY; A VICTORY DINNER; MAYOR HANNA

Major George Franklin Blalock of Dunn's National Guard unit became acquainted last week with Major John Eisenhower, son of the President. They spent a week together attending a special course at the Air - Ground Operations School in Southern Pines, and were in the same class. The Dunn officer found Ike's boy to be "a regular fellow," quiet and unassuming. "You would never know from the way he acts," says Blalock, "that he is the son of the President of the United States."

He was well impressed with the young celebrity. This week, Major Blalock, is attending another special school at Pope Field, a continuation of the same course he took at Southern Pines. The annual of Harnett High School, this year is dedicated to the wife of Principal F. H. Ledbetter, who is also a member of the school faculty. In Congressmen - elect and Mrs. Alton A.
