

BULLETINS

RALEIGH (P) Presentation of awards and finals in various statewide contests highlighted today's session of the three-day convention of the Future Farmers of America.

BRISTOL, Va. (P) — A 9-year-old Little League baseball player, Billy Ashbrook, dropped dead during a warmup yesterday, but Coroner Dr. F. T. Buchanan said death, caused by a ruptured blood vessel in the brain, had "nothing to do with the fact that the boy was playing baseball."

SUNNINGDALE, England (P) — Polly Riley, the little Texan with a mighty putter, faced Mary Ann Downey of Baltimore today as American stars filled four of the eight quarter-final berths in the British Women's Open—Amateur golf tournament.

NASHVILLE (P) — Tennessee Democrats meet today to put a final damper on hopes of Sen. Estes Kefauver for a delegation pledged to back his bid for the presidential nomination. The state Democratic convention was to meet in weatherbeaten Ryman Auditorium, home of the Grand Ole Opry, to name 110 delegates to cast Tennessee's 32 convention votes.

WASHINGTON (P) — The way apparently has been cleared for a House vote on the administration's civil rights bill. But even if it passes there, its Senate chances are doubtful.

NICOSTA, Cyprus (P) — Cypriot extremists blasted the automobile of an American consulate official today. A muffled explosion in the gasoline tank damaged the car owned by 26 year old Louis Ladbouve of New Orleans.

SAN FRANCISCO (P) — The Rev. Martin Luther King, leader of the Montgomery, Ala., bus boycott, has urged Negroes to oppose segregation through "non-violent" resistance.

MYRTLE BEACH, S. C. (P) — The board of governors of the Bright Belt Warehouse Assn. today sets opening dates for fluecured tobacco auctions on belts stretching from Florida to Virginia.

WASHINGTON (P) — Administration lieutenants predicted today that the Senate will approve a 4 1-2 billion dollar foreign aid bill without drastic cuts.

CHICAGO (P) — The atomic age reached a new milestone today with the activation of the nation's first private nuclear reactor for industrial research. The 50,000-watt, \$700,000 research reactor opened the door to an entirely new field—unlimited non-military application of nuclear energy.

MARIANNA, Fla. (P) — A lightning bolt struck and instantly killed Mrs. Melissa Mabel Mears, 55, of nearby Altha yesterday as she sat under a tree in her front yard.

WASHINGTON (P) — Rousing music by the U.S. Army Band Wednesday night lured President Eisenhower to his first brief public appearance since he was hospitalized nearly three weeks ago. Mr. Eisenhower, smiling and waving, appeared at his window and listened to an outdoor band concert beneath his room at Walter Reed Army Hospital.

WASHINGTON (P) — The Agriculture Department reports that cigarette and cigar smoking is increasing while pipe-smoking and tobacco chewing are declining. Snuff users are holding their own.

WASHINGTON (P) — The House Public Works Committee today approved an omnibus bill authorizing new navigation, flood control, and beach erosion projects to cost about \$1,140,000,000. The measure, on which Congress expects to complete action before adjourning, would add to an already big backlog of authorized projects.

WASHINGTON (P) — Sen. Walter F. George warned the Senate today against weakening the free world's military strength and thereby exposing the nation's children to the danger of a future war.

RALEIGH (P) — The State Board of Conservation and Development says that "extremely liberal" inducement plans to attract new industries have met with such "outward" success in poorer states that they are being adopted in states "not in distressed areas."

WASHINGTON (P) — Secretary of State John Foster Dulles said that Russia's anti-Stalin campaign has thrown international communism into "a state of perplexity" and has greatly weakened Moscow's control of foreign Communist parties.

WASHINGTON (P) — Republicans all but wrote off as a "lost cause" today their attempt to block a Democratic drive to increase President Eisenhower's Air Force budget by \$60 million dollars. They abandoned hope as House appropriations experts indicated they will accept some, and possibly all, of the extra money voted by the Senate yesterday. Most of the added funds would go for production of B52 intercontinental bombers.

LONDON (P) — Elder statesman Bernard Baruch, who arrived here yesterday to visit former Prime Minister Winston Churchill, paid tribute today to the memory of former President Franklin D. Roosevelt. Baruch laid a wreath of flowers at the base of a statue of the former President which dominates Grosvenor Square.

LONDON (P) — A Conservative party revolt over Prime Minister Anthony Eden's Cyprus policies threatened the Eden government today in the midst of the Commonwealth prime ministers conference.

WASHINGTON (P) Administration lieutenants predicted today that the Senate will approve a \$4.5 billion foreign aid bill without drastic cuts when the final showdown comes tonight or Friday. But they conceded some close votes are in prospect before the fight is over.

RIO DE JANEIRO (P) — Brazil circles today awaited publication of export regulations on the 1956-57 crop, promised before tomorrow.

Little Things

(Continued from Page One)

publicans on the staff of the local Post Office, practically all being holdovers from the previous Long-ago GOP administration.

LITTLE NOTES: James (Gardner's Dairy) Surles report that he and Frances and Mr. and Mrs. Wesley Coats had a wonderful time on their recent vacation in Florida. Did he see any pretty girls in Miami Beach? "Man, what are you talking about," exclaimed James. "I never saw so many beautiful babes in all my life."

And we just bet Frances was jealous of every one of them!

That James is a handsome fellow! Ed Holt Wilson, home on leave from the Navy, has been assigned to shore duty in Washington, D. C. and he's tickled pink about it, too.

Ed Holt likes Washington and says that after he retires — just three years hence—he'll probably settle down in the capitol. Ed Holt has made a wonderful record in the Navy, has seen duty with both the Atlantic and Pacific fleets and for a good while was stationed in Hawaii. "Most of that hula girl stuff," he said, "is strictly for the tourists. The only hula girls you find on Waikiki Beach are in the night clubs and plush hotels."

The Dunn youth says life in Hawaii grows dull and tiresome. First time we ever heard that complaint!

BIRTHDAYS: Today is the birthday of Wesley Howard, Lizzie McLamb, Mrs. A. B. Godwin, Jr. and Lottie Reid.

THINGAMAJIGS: It's an easy thing to tell which girls have matrimony on their mind and which mothers have daughters of marriageable age—they start giving parties for all the brides-elect. It's the same old social cycle — you give me a party and I'll give you one and the poor gals who get married without having done their share of entertaining in the past tie the knot without benefit of such social honors. Must get awfully boring to those in the social whirl. A bride-elect who's a very pretty and also a very honest gal confided to us the other day: "Frankly I'd like to slip off and elope but Mama would have a fit. . . . These parties are for her benefit, not mine, because I detest them. . . . That's what the lovely thing said and we wonder how many others feel the same way. . . . But that's the price she has to pay for being socially prominent. . . . But we just love making pictures at bridal parties. . . . The girls always look so pretty and their perfume smells so good. . . . And that relieves the boredom of having to walk for brides — elect who invariably are always late for their own parties. . . . Somebody put out the word around town last week and early this week that Erwin Mills wouldn't pay off until Thursday. . . . Pure propaganda. . . . The mills paid off, as usual, on Tuesday and today is presenting employees an extra vacation pay check. . . . And now somebody has invented a gadget called the Kissogramme. . . . It measures the weight of a kiss. . . . The Kissography, the book says, is the study of kissing and students of Kissography, it says in another chapter, seldom miss the bus. . . . The instrument measures the force, or weight of a kiss in graph. . . . A survey showed the maximum weight of a kiss (usually the most passionate kiss, it says) is one pound and three ounces. . . . Imagine that! . . . And the survey further shows, the kiss that most men give their wives as they leave for work in the morning weighs about one pound and usually less. . . . Now, is that fair! . . . All of which nonsense is just a way of finishing up this column.

THINGS TO REMEMBER: Today is the birthday of Wesley Howard, Lizzie McLamb, Mrs. A. B. Godwin, Jr. and Lottie Reid.
