Negro Woman, 48, Seriously Hurt Driver Charged

Ophelia McDugal, a 48-year-old colored woman, was critically injured and several others received minor cuts and bruises in a two-car collision three miles south of Bunnlevel.

The driver of the '46 Ford in which Mrs. McDugal was riding has been indicted. Highway Patrolman Robert Beck, who investigated the accident, said the "physical evidence shows that his car was on the wrong side of the road." James Lee McLean of Lillington, Route 2, the driver of the car, defies this. A 43-year-old negro, McLean was treated at Betsy Johnson Memorial Hospital for cuts about the face, then released.

Others riding with McLean were William McDugal, negro, 47, of Bunnlevel, Route 1; Rachel McDugal, negro, 38, same address; and Tommy Lee Sanders, seven years old, also of Lillington, Route 1. They received cuts and bruises but were not held in the hospital. Patrolman Beck said the '46 Ford was on the wrong side and operating at twenty miles an hour when it struck a 1956 Ford driven by a Fort Bragg private, Julius Lee Bedding, negro, 27.

The Bedding car, said Beck, went as far as possible to the side of the road to avoid the collision. Riding with the soldier was Oral Lee McLean, negro, 28, of Bunnlevel, Route 1. She was treated at the hospital for a cut forehead, received when her head hit the windshield.

Bedding was going toward Joe Bryant's Store, the McLean car coming away from it on the rural paved road when the wreck occurred. Patrolman Beck estimated damage to the newer car (Bedding's) at \$600 and to the McLean car at \$300. Bedding, he stated, was traveling approximately 40 miles an hour.

HOW FAR WILL A DOLLAR GO?

George Washington is said to have sent a silver dollar spinning all the way across the Rappahannock River.

But young George's dollar wasn't in the same class with the dollars you spend for electric service.

Your electric dollars go farther than any other dollars you spend. And they work miracles that Washington never dreamed of—automatic cooking, automatic dishwashing, automatic air conditioning, to name a few.

If he were alive today, George would think twice before he threw away a dollar that could do that kind of work!
