### These Little Things

ED SULLIVAN HOST  
TO A DUNN FAMILY

Corporal Rommie Williamson, commander of the State Highway Patrol in Harnett, has received orders to report to Manteo this coming weekend to serve as an aide and escort to one of the visiting governors who will be there attending a conference. Rommie has received similar orders to assist visiting dignitaries before. One of them a decade or so ago happened to be a fellow by the name of Dwight David Eisenhower, who was visiting the State with his wife, Mamie. The popular Dunn officer spent three days squiring the Eisenhowers around. Cute little Dolly Peay, eight-year-old daughter of Mr. and Mrs. Hubert Peay of Dunn, will make her television debut Wednesday afternoon at 4:30 o'clock over W.MFD, Channel 6, at Wilmington. Dolly, a student of George Mark's School of Dance, will sing and dance on a kiddie program. She's got talent-plus. Mr. and Mrs. James Snipes and their two sons, Jay and David, had a fine time in New York last week. They didn't just see the Ed Sullivan Show — they were on Mr. Sullivan's personal guest list and occupied reserve seats at the big broadcast. They also saw a lot of other good shows. The same

## Arson Suspected In House Burning

The house was falling in as the fire department arrived. Throwing flames high into the sky, the burning building roused a large crowd of curious spectators early Sunday morning and they stood about as firemen pumped water on the roof and sides of the blazing dwelling.

It was at 708 North Layton Avenue and belonged to Mrs. O. T. Wilson.

Afterwards, it was reported that the house had been empty since the morning when the occupants reportedly moved out.

Fire Chief Ralph Hanna said he suspects arson, but stated there was no physical evidence uncovered to prove this nor any indication of the supposed perpetrators.

John E. Norris, member of the

fire department and the town's fire marshal, said some neighbors living nearby had allegedly heard a car drive up shortly before the fire was discovered at 1:35 a. m., Sunday morning.

Mrs. Wilson, the owner, said she was sure "no-one is angry enough with me" to have deliberately set fire to her house as an act of destruction.

The residents of the house, she said, were Mr. and Mrs. Jack Sea-

## Delay Hearing On Bond For Bobby Pope

The hearing to determine whether bond will be allowed for Bobby Pope, Dunn youth accused in the fatal shooting of Harold Mayo, has been indefinitely postponed.

Attorneys Everett Doffermyre and D. K. Stewart had originally expected to ask for bond at a hearing last Monday. Postponed until this Monday, the hearing has now been delayed till some unspecified date.

Pope was arrested on June 2 for the night-before slaying of Mayo, 21-year-old Four Oaks youth, whom he described as his best friend. The shooting took place in Mayo's car. Otis West, claiming he was in the middle seat of the car when the shooting occurred, said the two were arguing over a gun.

Bobby is the brother of Dunn Policeman Red Pope and well-known in town. The shooting of the Four Oaks youth, Bobby's disappearance and subsequent reappearance, only to be arrested by his brother, electrified the town.

## Boxing Combine Smashed

NEW YORK (UP) — Federal Judge Sylvester J. Ryan today ordered dissolution of the two International Boxing Clubs and complete divorce of Promoter Jim Norris and partner Arthur Wirtz from the Madison Square Garden Corp.

Those two orders were the most important punches in today's decisions on remedies to smash the most powerful boxing combine in ring history, which already had been found guilty of monopoly in its promotion of title fights.

The divorcement of Norris and Wirtz from the Garden corporation will be achieved by forcing them to resign as president and director of the garden, respectively, within 30 days after July 1 and lose all voting power on their stock.

They are ordered to dispose of their 2 million dollars worth of Garden shares within seven years.

## Special Meeting Called On City's Budget Problems

In a quiet session of the Dunn City Council, the board deferred until Monday night any further action on the proposed city budget.

Preliminary approval must be given by July 8 and final approval 20 days thereafter.

Board members heard from W. F. Morrison, executive secretary of the North Carolina board of examiners for plumbing and heating contractors, on the state licensing laws. Local plumbers have complained there are unlicensed freelancers at work in Dunn.

They approved curb and gutter for a property owned by Bob Baer on Cole St., and also for the James Snipes property at Granville and Gen. Lee.

Only one bid was received in response to a board request for estimates on private upkeep of the Greenwood Cemetery, work presently undertaken by the town with its own workers. This bid, from house-moved Addison Brewington, was not even opened, the council deciding so little interest had been shown they would postpone action until later.

A request for traffic signs on Guy Avenue was tabled. Postponed for later action was a request from Motor Credit that a parking meter be moved. At the Guif station, no meter will be taken but three will "slide forward."

Since the regular meeting would fall on July 4, Councilmen rescheduled their next regular session for July 1, a Monday instead of the usual Thursday.

A new shipment of city tags has arrived, said City Manager Uzzle, who has advised all motorists who haven't bought them they'd better hurry. A list is being prepared for Dunn police of those who bought state tags but not the city tags. Those convicted of skipping this little item will be fined with court costs instead of the mere dollar it costs to get the tags before police haul them in.

## Princess Meg's New Romance Brings Talk

LONDON (UP)—Princess Margaret's frequent dates with Lord Patrick Beresford touched off new speculation today about her marriage plans and brought a gossip column comment that she might be poaching on another woman's romantic preserve.

**COMES ROLLING IN**—Elmore's new feed mill, just off 301 south, held an open house Saturday, showed off its facilities to local farmers who have been invited to bring their grain there for processing. Photo above was snapped as the first load of corn was sent through the firm's neatly arranged processing unit. Lifting bag (right center) is James Elmore. He runs business with his father, J. H. Elmore (seen just behind him). (Record Photo.)

## To Restrain Man From Sin

## Billy Says Hell Necessary

NEW YORK (UP)—Evangelist Billy Graham said Sunday night that Hell is necessary to keep man from sin as the electric chair is necessary as a deterrent to murder.

Graham discussed his concept of hell before some 18,000 persons in Madison Square Garden.

The North Carolina preacher said he did not know what hell was like "but I know the word" (Continued On page six)

## Nineteen Escape Without Injury

## 17 Persons Killed In Plane Crashes

## Stevie Stone Hurt As Jeep Wrecks

A four-year-old Lillington boy and his father were both injured on Friday night when an oncoming car failed to dim its lights and the jeep in which they were riding ran off the side of a road into a ditch.

The father, Allen B. Stone, said today that he expects his son to be out of the hospital in two or three days. Stevie Stone, 3, suffered a fractured collar-bone and a minor skull fracture. The father received a couple of cracked ribs but was not hospitalized.

Stone said the wreck occurred three or four miles from Lillington. After the wreck, a car behind took them to Good Hope Hospital in Erwin. Highway Patrolman Robert Beck investigated the accident which occurred about 10:30 p.m. Friday night.

By UNITED PRESS... An airliner crashed with a heavy loss of life at Port Hardy, B. C., Sunday, but another liner made an emergency belly landing at Minneapolis without a scratch to its passengers or crew.

At least 17 persons were killed in two plane wrecks Sunday.

Nineteen other persons escaped unhurt in crash landings Sunday and today.

At Port Hardy, 14 persons were (Continued On Page Six)

## Erwin Value Days Begin Tues. At 9

Erwin Value Days, designed to be even bigger and better than the tremendous money-saving event sponsored by the friendly business firms of Erwin, last June, will get underway Tuesday morning at 9 o'clock and continue through Saturday night, with business firms of Erwin offering outstanding and almost unheard-of values during these five days.

The slogan is "Bigger and Bet-

## Today's Blast Was Biggest One Yet Fired

ANGELS' PEAK, Nev., (UP)—The Atomic Energy Commission unleashed the fifth and heftiest atomic explosion of its 1957 experiments today—a blast so powerful it ripped off a door and cracked the concrete wall of the control block-house 14 miles away.

Its mighty flash shamed the post-dawn daylight and momentarily blinded unguarded witnesses 45 miles distant. Its sound wave bounced off a stratosphere layer and was heard in Reno, Nev., 300 miles away.

The detonation was set up as the first major test, in the scheduled 20-shot series, of a totally new approach to civilian underground shelters.

In addition to testing the survival characteristics of civilian shelters beneath concrete domes, experiments were conducted to determine the most suitable radiation-protective clothing for soldiers and civilians and the effects of radiation fallout on foodstuffs.

Interior doors at the control point swung freely in the earthquake-like shock wave, the AEC reported. No one was injured.

The door went flying off its hinges and a four-foot long crack split the thick concrete wall.

Men In Trenches... A total of nearly 1,000 military observers occupied trenches 5 1/4 miles from ground zero, the first use of troops close up in the current series.

Troops have been used in tests during previous years. They have been stationed up to one and one-half miles from ground zero, although undergoing less powerful blasts.

Military items for testing included field fortifications, fox holes and gun emplacements and battlefield equipment in addition to various types of protective wear for the soldier of the atomic age. "Only light fallout readings are anticipated" along Highway 93 and "for further distances into Utah," the AEC said after the blast. Its announcement said the cloud, which had started out to the southeast, had taken a firm course as scheduled slightly north of due east.

Held by Balloon... A thunderous roar shook the Nevada proving grounds 45 miles from the observer's site as the (Continued On Page Seven)

## Supreme Court Bars Sending Obscene Material In Mails

WASHINGTON (UP)—The Supreme Court today upheld the constitutionality of the federal law that bars sending obscene material through the mail.

Justice William J. Brennan Jr., speaking for the court majority, said "obscenity is not expression protected by the First Amendment" guaranteeing freedom

of the press.

At the same time, the court upheld the validity of a California statute enacted in 1870 which makes it a crime to write, advertise or distribute indecent literature.

The court division on the obscenity law was 6 to 3 in the federal case. It was 7 to 2 in the California case. Justices Hugo L. Black and William O. Douglas dissented in both

instances. Justice John M. Harlan dissented in the federal case but concurred in the California case.

Chief Justice Earl Warren concurred in the result. He wrote a separate opinion.

Not Synonymous... Brennan emphasized that "sex and obscenity are not synonymous."

"Obscene material is material (Continued On Page Six)
