

Scattered showers, turning colder this morning. Partly cloudy, windy and much colder tonight with a few snow flurries in the mountains. Saturday generally fair and colder.

CBS CHIEF DENIES QUIZ FIX BLAME

Disclaims Responsibility For Dept.

Mayor Wants Chief Fired

Mayor J. Ed Johnson this week renewed his charges that Benson Police Chief Johnny Medlin had used the police station telephone for out-of-town calls on personal business and also sought to oust the local chief on the grounds that it is not legal for him to hold the position while living outside the town limits.

The mayor brought these matters to the attention of the local board of commissioners at their meeting Monday night. Medlin was present. When the board did not take any action with regard to the police chief, Johnson said that he wanted it specifically understood that he was not going to be in charge of the police department and that he was going to have nothing to do with it.

Johnson brought a list of police telephone calls to the meeting. He asked Medlin if he had not made three calls to the Raleigh-Durham airport asking about weather for fishing, three calls to a Dunn tobacco warehouse on personal business, and two calls to Sneed's Ferry to arrange for fishing trips. Medlin admitted to making most of the calls and said he could not remember some of the others.

Johnson asked Medlin if the American Legion had not given him a gift of \$50. Medlin said that the gift had been in appreciation of his policing the Legion dances on off-duty hours.

The mayor brought up the case of another town employee, Jethro Parker, who was dismissed on (Continued On Page Seven)

SEEN AT THE SEASHORE—Dolores Kirby came down to the seashore to see what she could see, and wound up right in front of the camera. An alert cameraman found Dolores at Miami Beach, Fla. (NEA Telephoto.)

These Little Things

By HOOVER ADAMS

LITTLE NOTES ABOUT PEOPLE AND THINGS

Army Private Leroy Myers of Alexandria, Va. was killed in that horrible automobile smashup near Holland's Lake late Saturday afternoon....But his parents didn't get word of his death until late Sunday night—they were enroute to another State where his sister had been seriously injured in an auto accident earlier the same day....The Rev. L. O. Leet (re-member, Meet M. Leet and Ida Lee McCuller, who conducted a big evangelistic campaign at Dunn's Hood Memorial Christian Church a year or so ago, have just concluded a meeting at the Broad-way Methodist Church....Mrs. Mordca Vann is out in Tujunga, California with her daughter, Ann....There's a story behind these Dutch masquerades, costumes worn by Bill and Peggy Bryan at the Halloween masquerade ball at Chicora Country Club Saturday....The popular city official serves as Eastern Carolina representative for Bradley and Baker, distributors of Cal-Nitro, a nitrogen substance used in fertilizers....Practically all of it is imported from Holland and other European countries....A few months (Continued On Page Six)

Stanton Admits His Network Was "Wrong"

WASHINGTON (UPI) — CBS President Frank Stanton today hotly denied a congressional investigator's charge that network officials ignored 1957 "storm signals" that TV quiz shows were rigged.

"Sure, we were wrong," Stanton said. "I don't want to deny that—but a lot of people were involved. I wouldn't say there were storm signals up all over. Very few people knew about this."

His voice raised, the head of the Columbia Broadcasting System fired the reply at Robert W. Lishman, chief counsel for a House subcommittee, investigating quiz show fixes. Lishman had challenged Stanton's statement that he was "completely unaware" of any "irregularity" on the CBS network until Aug. 8, 1958.

Stanton had said in a prepared statement that "when gossip about quiz shows in general came to my attention, I was assured by our television network people that these shows were completely above criticism of this kind (rigging)."

"With benefit of hindsight," he said, "it is now clear that I should have gone further."

No Sure Antidote Stanton also said Congress could pass a law making it a crime to "use deceitful practices," but that there is no sure way to eliminate the danger of rigged quiz shows. That is why CBS took all its big money shows off the air, he said.

He conceded that the television industry "didn't exercise sufficient diligence" prior to 1958 to prevent quiz show rigging. But he added that "hindsight is always 20-20."

"I grew up in the business," (Continued On Page Seven)

COMING TO CAMPBELL—The boyfriends in the Theatre of the Woman's College production of "The Boy Friend" pose in their costumes for the ball. Shown left to right are John Jones, Bruce Johnson, Bob Putnam and Roger Jewett, all of Greensboro, and seated Jack McFadden, Greensboro; W. C. Burton, Reidsville, and Hunter Tillman, Greensboro. The show will be the opening at-

traction on the Campbell College Concert series Monday night, November 9, with curtain time at 8 o'clock. Season tickets for the six attractions offered on the series will be on sale at the boxoffice until curtain time. Adult memberships are \$5 and all students memberships are \$3.

Police Would Have Sent Her to Boys' Town

Girl Posed As Boy - Hoodlum

For Next Year's 4-County Fair

Legion May Put Up Exhibition Hall

Freshly excited over the possibilities of the Four County Fair here, the Dunn American Legion post has laid tentative plans to put up a permanent exhibition building.

At their meeting last night, they decided to call for plans for such a building. These will be reviewed as soon as possible and construction may begin within a few weeks.

Legionnaires who discussed the proposed building last night agreed that it should go up right away, if they take the jump and finance it.

While bad weather cut into the gate receipts at the recent-

GOLDEN, Colo. (UPI) — Barbara Ann Malpass of Albany, N. Y., who impersonated a 16-year-old boy for six months and fooled police in three states, relaxed in a skirt and nylons today, but fretted about her crew cut.

The 20-year-old fast talker said her imposture began six months ago when she left New York to "see the west."

"I was scared to death," Barbara Ann said, every time she was confronted by police. But they never caught on.

She sneaked sponge baths during her 37-day stint in the Jefferson County Jail at Golden. Once she picked a fight to keep from having to share a cell with a (Continued On Page Eight)

Stores Set Longer Hours For Xmas

Stores here made an advance announcement today on special arrangements they will make to help shoppers through the Christmas season.

The Dunn Retail Merchants Association agreed that stores here will stay open until 9 o'clock for three successive Fridays starting December 4.

And starting with December 19, the stores will remain open each evening until 8 o'clock. On Christmas Eve, which falls on Thursday, they will be open until seven.

Nearly all local retail establishments are expected to follow this pattern. And most stores will pro- (Continued On Page Four)

Fired Policeman Hired As Deputy

Fired by the Benson town board as a policeman two weeks ago, Charles Woodall was appointed Monday by the county commissioner to serve as a special deputy sheriff for the Benson area.

Appearing before the commissioners to request Woodall's appointment were J. Ed Johnson, Benson mayor; Ralph Whittington,

Case Will Be Aired Next Week

Beasley Charges Dupree and Son

Still another charge of assault with a deadly weapon is to be pressed against Jet Drive-In operator Thomas Dupree.

Local authorities disclosed today that both Dupree and his son, Tommy, a teenager, have been charged with assault by Graham E. Beasley.

Beasley, described as in his early twenties, accuses Dupree of getting a shotgun after him and charges the son with hitting him on the head with a bottle and (Continued On Page Eight)

Prices On Way Up Due To Strike

WASHINGTON (UPI) — Price increase on a variety of consumer goods are expected unless strike - idled steel mills resume production within the next few days, government economists said today.

The 115-day-old walkout is now close to the point where it creates shortages that in turn cause prices to go up or remain firm instead of declining normally.

Government experts so far have not been able to put their finger on any inflationary movements in the price of steel or products (Continued On Page Four)

Carolyn Hawley Student Of Month

CAROLYN HAWLEY

Carolyn Hawley, a chipper young lady and currently a senior at Dunn High, was chosen the school's "Student of the Month" this morning.

She was elected in open assembly partly because of the good job she did as chairman of the school's recent College Day. On that occasion, representatives from North Carolina's major (and minor) collegiate institutions talked with students from this area in individual conferences.

Carolyn, the daughter of Mr. and Mrs. Earl Hawley, will go to college herself next year. She is president of senior Tri-Hi-Y, and a member of the annual staff.

Ophelia Matthews, principal of Dunn High School, said students of the month are chosen as a function of student government. The choice is entirely up to the study body itself.

ly - concluded fair - first to be held here since year before last - the Legion was not downhearted over results.

"We feel we came out all right," said a spokesman for the club.

The Four County Fair had been gradually attaining the status of an institution until it was temporarily dropped in 1958. Farm and home exhibits are always an important adjunct of the Midway.

However, if an exhibition building is established, this part of the fair is likely to be expanded. The building would provide advantages not compensated for by the giant tents which have been used here in the past.

Legion Commander Hubert Peay said that the call for plans will go out immediately and any action to be taken will click right along.

Will Try To Clear Up Traffic Problem

Council To Act As Corner Checkers

Dunn's town council has agreed to act as a committee of the whole in order to inspect "blind corners" here which are reputed to be traffic hazards.

Mayor George Franklin Blalock has indicated he thinks a campaign is in order to improve visibility at all city intersections.

At last night's regular biweekly meeting of the board, a number of subjects were discussed and the board closed shop early - around nine o'clock - when an expected delegation failed to appear.

Grandmother Kills Illegitimate Child

HIGH POINT (UPI) — A 45-year-old grandmother was sentenced to 3-5 years in Woman's Prison Thursday for killing her daughter's illegitimate child.

Mrs. Nellie Marie Snow entered a plea of guilty to manslaughter. The newborn infant's body was found wrapped in rags and hid-

den under a log in a ditch near the Snow home. A rag had been tied around the baby's throat and the head had been injured.

A neighbor said he saw Mrs. Snow "stomp" the bundle containing the infant several times. Dist. Sol. Horace Kornegay said the slaying was the "most repulsive" he had encountered.

Judge Richardson Preyer said he believed Mrs. Snow was trying to help her unmarried daughter "in a sort of twisted way." A charge against the daughter of concealing the birth was dismissed when Mrs. Snow's attorney said the grandmother was assuming "full responsibility by pleading guilty to manslaughter."

Students Rally For Van Doren

NEW YORK (UPI) — Several hundred Columbia University students, supported by a contingent of coeds from neighboring Barnard College, rallied on the university campus Thursday night to protest the firing of Charles Van Doren.

The rally was the second step in a concerted effort by Columbia (Continued On Page Six)

Garbage Cans Too Old-Fashioned?

Never Grind Your Daddy In That Lovely Dispose-All

By TED CRAIL

Sometimes it seems that our city council is almost as interested in the family garbage as Sid Caesar used to be on his television show.

Garbage, of course, is a universally interesting subject. Dogs are interested in it. Housewives, too.

And now somebody has renews-

ed a suggestion, first brought up here about three years ago, that everybody ought to have a mechanical dispose-all. By local legislation.

This, so the theory goes, would eventually relieve the city of the whole problem of collecting "wet garbage" (as distinguished from good old dry garbage, which every-

body adores and which the city loves to put in its garbage dump). WHY, DEAR FRIENDS, there is a garbage dispose-all in my little home and do you think it solves all our garbage problems? No, indeed it doesn't.

The dispose-all is willing but the human heart is weak. Personally, (Continued On Page Six)
