

Church To Erect Education Annex

FRONT — SPRING BRANCH

The members of Spring Branch Baptist Church are beginning one of the largest projects ever undertaken in the more than one-hundred-year history of this rural Sampson County Church.

They have laid the foundation for a new 7,500 square feet, educational plant of modern design.

The new educational plant will, when completed, be completely departmentalized with class rooms for Sunday School and Training Union Activities. It will contain a kitchen, a recreation room, modern nursery rooms, and other facilities needed to house this rapidly growing church.

The ground-breaking activities were held on Harvest Day, the 2nd Sunday in October, and actual construction was begun two weeks ago. The educational building will be completed first and then plans are to be developed for a modern sanctuary building adjoining the new educational plant. A new tract of ground has been secured from Freddie Williford across the road from the present building.

There have been a number of Committees actively at work making plans, heading fund drives, and directing the work of the building itself. Mr. Hawley Stone is Chairman of the Building Committee and working with him are Earl Core, Thomas Williams, Elbert Glover and Galveston Hinson.

The Planning Committee is composed of Thad Dixon, Chairman, Bill Wood, and Mrs. Jesse Herring. Members of the Finance Committee are Eugene Eugene Naylor and John Wade with others to be added. From various drives over the past year or so, \$18,657.00 has already been raised with additional amounts pledged toward the building program. Other church organizations are helping in the drives. One of these is the Woman's Missionary Union under the leadership of Mrs. Annie C. Glover. Rev. Robert H. Harris is Pastor of Spring Branch and is leading the building drive.

Mr. W. C. Bass of Salemburg has been selected as Foreman of Construction and many local men are donating their time and labor in the actual construction program.

Miss Wilkins Died at Age 69

Miss Mattie Wilkins, 69, of Route 2, Dunn died this morning at the home of her sister, Mrs. Annie Norris.

She was born in Harnett County, daughter of the late Lambert and Betsy Bryant Wilkins. Funeral services will be held Thursday at 3 p. m. from Grove Presbyterian Church with the Rev. Rufus Cromartie, pastor, officiating and burial will be in the Johnson Cemetery. The body will be carried to the church one hour prior to the service.

Surviving are three brothers, Elmon of Smithfield, Sam of Garner, and Fred of Durham; three half-brothers, Paul and Archie Wilkins of Durham, and George Wilkins of Ahsokle; three sisters, Mrs. Emma Johnson, Mrs. Annie Norris and Mrs. Earl Wells, all of Route 2, Dunn.

The body will be carried to the home of her sister, Mrs. Annie Norris.

Benson Girl Wins Honor

CHICAGO (UPI) — Three Tar Heel 4-H Club members winners at the National 4-H Congress being held here this week.

Ola Mae Bundy, 17, Rt. 2, Elizabeth City, received a scholarship for presenting 39 dairy food demonstrations; Rebecca Parker, Rt. 2, Benson, received a scholarship for clothing; Harold Vick, 16, Rt. 3, Nashville, gardening.

Ola Mae has been a 4-H member for nine years and has completed 46 projects. Rebecca Parker has been in 4-H work for seven years. She has completed 46 projects. She has finished 220 garments in her seven years in the clothing achievement project.

Harold Vick has been a 4-H member for eight years and has completed 34 projects.

Americans eat an average of 18.6 gallons of ice cream a year.

BULLETINS

CAPE CANAVERAL, Fla. (UPI) — A faulty radio beacon or a torn capsule may have been to blame for the Air Force's failure Tuesday to get the first color photographs of earth from the dark brim of space. Recovery teams stationed about 1,700 miles down the Atlantic missile range gave up their search for the camera-carrying capsule about 1 1/2 hours after the instrument rode into the darkness above blue skies in the nose cone of a Thor IRBM.

GOLDSBORO (UPI) — Dedication ceremonies for a new \$1,750,000 hospital at Seymour Johnson Air Force Base will be held Friday at 3 p. m. Maj. Gen. D. W. Hutchinson, commander, 9th Air Force, Shaw AFB, Sumter, S. C., is expected to attend the ceremonies.

WASHINGTON (UPI) — Thomas S. Gates Jr. took over as defense secretary today and prepared for a new congressional fight over the threatened gap between American and Russian missile strength. The 53-year-old Philadelphian was to be sworn as Neil H. McElroy's successor at a White House ceremony, becoming top director of the administration's embattled military program.

WASHINGTON (UPI) — The government is about to take a "new look" at the widespread use of a synthetic female sex hormone to fatten up cattle and poultry, it was learned today. The hormone drug, diethylstilbestrol or more commonly called "stilbestrol," is known to cause cancer of the breast in man when taken in large doses, Food and Drug Commissioner George P. Larrick said.

WASHINGTON (UPI) — Federal mediators, apparently thwarted in attempts to settle the steel dispute, looked to President Eisenhower today to tongue-lash union and management negotiators into a more conciliatory mood.

SHERMAN OAKS, Calif. (UPI) — The Sherman Oaks Chamber of Commerce today threw its support behind efforts to obtain a painted crosswalk across a heavily traveled street where a dentist was cited for painting the walk himself. Dr. Louis J. Friedman, 42, the crusading dentist, was formally charged Tuesday with two motor vehicle code violations and two city code violations for painting the crosswalk Sunday morning.

WASHINGTON (UPI) — A union leader said today a shorter work week might be the only alternative to mass unemployment in future years. Al Whitehouse, director of the AFL-CIO Industrial Union Department, made the statement in a speech prepared for a labor conference on workers' retirement and leisure problems.

LONDON (UPI) — The Soviet Union has indicated it may agree to end jamming of Western broadcasts, the British government disclosed Tuesday.

"morally disastrous" solution to population problems, the bishops said that American Catholics "will not support" any use of public funds, either through direct foreign aid or through international organizations, to "promote artificial birth prevention."

The Rt. Rev. James A. Pike, Protestant Episcopal bishop of California, said the Catholic stand "would condemn rapidly increasing millions of people in less fortunate parts of the world to starvation, bondage, misery and despair." He demanded to know whether the policy pronounced by the bishops was "binding on Roman Catholic candidates for public office."

Eisenhower, on the eve of his departure for Europe, the Middle East and Asia, talked at some length about his trip with more than 260 reporters. He said that, above all, he hoped to convince the rest of the world that the United States is truly sincere in its quest for a durable, just peace.

Other news highlights: He said that unless steel management and labor can compose their differences in free collective bargaining, the government might be forced to some form of action which would be a sad day for the nation.

He spoke vehemently on the need for shelving non-essential federal spending programs in the hope of not only achieving a balanced budget in fiscal 1961, but a surplus to apply to some of the national debt.

During his trip he will be glad to discuss specific issues raised by leaders of other nations. As for the border dispute between India and Red China, Eisenhower said that aside from the legal aspects of determining the actual border, he was strongly on the side of any nation that attempted to solve its international differences by negotiation instead of force.

Control of Weapons In answer to a question, the President said that while he is out of the country he will retain full control over any emergency use of this country's atomic or hydrogen bombs. He said this authority

could not be delegated.

Seldom have reporters seen Eisenhower quite as blunt and bordering on denunciation as when he discussed the current controversy over whether the United States as part of the foreign aid program should supply birth control advice for other nations.

The subject was raised by a reporter who referred to foreign aid recommendations made to the President earlier this year by a special study committee headed by William H. Draper, a retired Army general.

The Draper committee report said the United States should, on request, assist other countries faced with difficult population expansion problems by providing information to help meet the problem. The report itself did not mention birth control.

Bill Terrel

(Continued From Page One)

view commander. Gen. Dahlen presented a Commendation Ribbon with Metal Pendant to Col. Terrell. The citation, read by Lt. Col. Earl F. Cole of Omaha, Neb., adjutant general of the Center, commended Col. Terrell for meritorious service from December, 1953, to November, 1959.

Col. Terrell held successive assignments as executive officer, Infantry School Detachment; executive officer, Doctrine Publications Office, and management officer and executive secretary, The Infantry School.

The citation read, in part, "His natural ability, profound determination, initiative and dedication to duty were reflected in the attainment of exceptionally high standards in each of the activities to which he was assigned and contributed greatly to the successful accomplishment of the over-all mission of the U.S. Army Infantry School."

Col. Cole also read a letter of appreciation for Col. Terrell's service, signed by Gen. L. L. Lemnitzer, chief of staff, U.S. Army, and a certificate of retirement signed by Major Gen. R. V. Lee, adjutant general of the U.S. Army.
