Ford Salesman Takes Course

Shelton Harfoot, salesman of Auto Sales & Service, Dunn, has been certified as a retail selling course graduate conducted at Fayetteville by Ford Motor Company's Atlanta Marketing Institute.

Certification of course completion was announced by L. G. Brock, director of the Ford Institute. The course is one of several available at the Institute for dealers, their personnel and Ford Motor Company employees. Classes are conducted by a staff of professional, full-time instructors. Subjects range from management and merchandising courses for dealers to their department managers to salesmanship and specialized workshops for staff members. In addition, the school of automotive business administration conducts training programs for selected Ford Motor Company personnel.

Classes utilize the most effective management methods currently being used by outstanding automobile dealerships, Mr. Brock said. Group participation is simulated selling or management situations is a primary part of each course.

GEHL Mix-All cuts feedmaking costs

The 10,000 owners of GEHL Mix-Alls have found that it's the best money-saving machine they have ever owned. Try it yourself... you'll save on costs by using your own grain and buying concentrate in quantity. You save the cost of grinding and mixing because you do it yourself. You save grain hauling trips to the mill. You save again by making feed in minutes... no waiting in line at the mill.

It's easy to make high quality, low cost feeds with a Mix-All. Just load your grain in the swinging auger feeder. Pour the concentrate in the low-mounted concentrate hopper. If you want to add roughage to your ration, toss hay or alfalfa into the crusher feeder. The Mix-All does the rest. In just 20 minutes you'll have two tons of finished feed. A commercial mill would be proud to put out. And you can't beat the convenience of grinding and mixing when you want to. You can make a fresh batch in minutes.

You'll like the savings... many of the 10,000 Mix-All owners report that in just one year they saved enough money on feedmaking costs to pay for their Mix-All. Seeing is believing... so step in soon for a demonstration of the money-saving, time-saving GEHL Mix-All.

OPTIONAL CRUSHER-FEEDER HEAD. Acts as both crusher and conveyor. Reduces feed roughage and ear corn into grind or a steady flow. You can get the desired texture with or without the optional roller feeder.
