Russell Hanson Speaker At Rotary Club

Russell Hanson of the N. C. Department of Conservation and Development spoke to Dunn Rotary Club members last night on how to go about getting industry for a town and brought out points that attract industry.

He discussed the pitfalls and mistakes that can be made and what to do and not do in getting industry, the publicity director, Howard M. Lee said.

"Industry should be secured by having a good supply of labor," he added, "good schools, streets, good town government and a good tax program."

New businesses are brought in on these merits, he said, rather than on tax exempt industry bonds that some states issue.

Charlie McCullers presented the speaker.

Louis Baer and Jack Smith, who are on the Chamber of Commerce industrial committee, were guests at the meeting at Porter's Restaurant.

President John Parker presided.

Mrs. Kennedy To Move Friday

WASHINGTON (UPI) — Mrs. John F. Kennedy will move out of the White House Friday, but it is not known yet when the Johnson family will move in.

White House Press Secretary Pierre Salinger said Mrs. Kennedy will move to a home in the Georgetown section of the capital lent to her by Undersecretary of State W. Averell Harriman.

Despite the sad break with the executive mansion, one Kennedy will remain on the premises for a time.

Six-year-old Caroline will continue to attend first grade in the White House at least through the end of this school year.

Dunn Jaycees Helping Needy

Again this year the Dunn Jaycees will be collecting toys and money for the needy at Christmas-time.

Through the cooperation of WOKB, persons having a toy or money to donate to the organization can call the radio station to request a song and the Jaycees will pick up the toy or cash donation.

Fourth Day In A Row

President Confers With Negro Leader

WASHINGTON (UPI) — President Johnson called in more racial and business leaders today in his intensive efforts to enlist more backing for tax cut and civil rights legislation.

The President scheduled a meeting with James Farmer, head of the Congress of Racial Equality (CORE), his fourth meeting with a Negro civil rights leader in less than a week.

Athletic Director Also Goes In Shakeup

Wake Forest Fires Coach

WINSTON-SALEM, N. C. (UPI) — Athletic director William H. Gibson and head football coach Billy Hildebrand today were relieved of their duties at Wake Forest College in a massive shakeup aimed at reorganizing the school's entire athletic program.

Each was offered a position in the school's athletic development program, but it was not immediately known whether they would accept.

"After a thorough study of our athletic situation," said Dr. Harold W. Tribble, president of Wake Forest, "an advisory committee has recommended that a reorganization of the athletic department and football coaching staff be made at once."

Tribble said "a subcommittee of the advisory committee has been appointed to recommend persons to fill the position of director athletics and head football coach."

The shakeup resulted largely from Wake Forest's inability to compete successfully in big-time football.

GA. COACH RESIGNS

Georgia football coach Johnny Griffith resigned today in the wake of three straight losing seasons. His successor was not immediately known.

Griffith, who succeeded Wally Butts after the 1960 season, had been under fire by alumni.

"It is the intention of the college to make athletics more effective and competitive in relation to the Atlantic Coast Conference," Tribble said, "and to promote a more vital relationship between athletics and the life and work of the college in keeping with high academic standards."

Gibson, 55, served eight years as athletic director at Wake Forest. He is a former FBI Agent and a 1929 graduate of Wake Forest.

Hildebrand, 39, is a former Mississippi State star and assistant coach at Minnesota. He had won only seven and lost 33 since taking over as head coach in 1960, and has three years remaining on his current contract.

The Deacons won only one of their past 20 games and managed to break an 18-game losing streak only last month with a 20-19 win over South Carolina.

The victory over the Gamecocks earned Hildebrand national "coach of the week" honors from United Press International.

"I'd have to say naturally this comes as a disappointment to me individually and as an embarrassment to my many friends," said Gibson, a 55-year-old former FBI agent who took over as athletic director.

Latin Nations Are Asked To Break Relations

CARACAS (UPI) — President Romulo Betancourt called Tuesday night for an air and naval blockade of Cuba to put a stop to the Castroite export of arms and revolution to other nations of the New World.

There was no immediate reaction from the United States, which presumably would have to furnish most of the forces required for such a blockade.

At a news conference, Betancourt also urged the few Latin American nations which have not already done so to break relations with Premier Fidel Castro's revolutionary regime.

The President's double-barreled attack on the Castroites was a sequel to last week's announcement that Venezuela has "definite and irrefutable proof" that arms found cached on a Venezuelan beach last month were smuggled in from Cuba for use by Communist terrorists in this country.

Appoints Committee

A few hours before Betancourt spoke, the Organization of American States had voted in Washington to appoint a special committee to investigate the Venezuelan charge.

In Miami, a former Castroite who brought Belgian arms for the revolutionary regime in 1959, said he recognized one of the cached weapons which was displayed on television. Ex-Maj. Ricardo Lorie said he is willing to assist the OAS investigators if his help is wanted.

Lorie said each of the automatic rifles he bought in Belgium is stamped with the Cuban national emblem.

"Castro was angry because I had the Cuban emblem put on the weapons," he said. "Now I understand why."

Betancourt said he does not think the rest of Latin America will hesitate to act when it sees proof that the Castro regime is seeking to overthrow the Venezuelan government.

Fifty Per Cent More CIG Smokers Hospitalized

Smoking Kills Twice As Many

PORTLAND, Ore. (UPI) — The death rate among a large group of cigarette smokers during a period of nearly three years was more than twice as high as among a similar group of non-smokers, an American Cancer Society expert said today.

Dr. E. Cuyler Hammond, pipe smoking director of the society's statistical research, reported new evidence in the relationship of cigarette smoking to death and disease in a paper delivered at the American Medical Association's 17th clinical meeting.

Matching 36,975 men over 40 who smoked a pack of cigarettes or more per day with the same number of non-smokers, Hammond said 1,385 of the smokers died during the 34.3-month period. Only 662 of the non-smokers died.

Of the cigarette smokers, 110 died of lung cancer while only 12 of the non-smokers died of that disease. Coronary artery disease killed 654 smokers and only 304 non-smokers.

Each man in one group was matched as closely as possible with a man in the other group as to age, race, size, residence urban or rural, religion, education, marital status, drinking habits, nervous tension and many other factors.

Hammond said he was trying

through this, "matched pair analysis" to eliminate all possible non-smoking differences between smoking and death rates might

be merely incidental. Of his findings, he commented that "it is hard to escape the conclusion"

President Backs Negro Leader

King Says Johnson Encouraged Move

ATLANTA (UPI) — Negro integration leader Martin Luther King Jr. today announced plans, with purported encouragement from President Johnson, to launch a huge voter - registration drive aimed at breaking up a conservative coalition in Congress.

King, head of the Southern Christian Leadership Conference, said he discussed the plan with Johnson during a one-hour private conversation at the White House Tuesday.

"He (Johnson) strongly encouraged it," King said.

King told reporters that he complained to the President that overriding controls by key congressmen bottle up crucial social legislation and thwart representative government.

King announced plans for a "vigorous voter registration drive" to

send more liberal members to Congress and "cause the Talmadges and the Russells to move in a different direction."

Georgia Democratic Sens. Richard B. Russell and Herman Talmadge led criticisms of the President's address before a joint session of Congress last week, asking for immediate passage of the Kennedy civil rights bill.

King asked whether he thought more Negro voter participation would change the attitude of Russell or Talmadge said: "Talmadge very definitely. I don't know about brother Russell."

He said Negro demonstrations that were called off at some places because of President Kennedy's death will be resumed after Dec. 15 and will continue on all fronts until Congress passes the civil rights bill.
