Henderson To Speak At Jaycee - Rotary Event

Solon Cites Responsibilities In Lillington Speech Tonight

Congressman David Henderson of Wallace, in a speech prepared for delivery at the annual service awards banquet of Lillington Jaycees and Rotarians tonight (Thursday), emphasized that freedoms carry responsibilities as well as rights.

"We have so often heard it said that we live in a free country that many persons have been deluded into thinking that our freedoms are absolute, but this is not the fact," the popular Third District solon will tell the big crowd expected for tonight's event. In an obvious reference to civil rights demonstrations, Congressman Henderson lashed out at

those who would rebel against authority with the false claim it is their right and freedom to do so. "Jesus Christ who came to this earth to champion the cause of freedom of the individual would not advocate revolt against established authority, even though that authority was unpopular to his followers," he pointed out, and then cited a Bible passage which bore out the statement: **QUOTES BIBLICAL AUTHORITY** "When the lawyer asked whether it was lawful to pay tribute to Caesar," said Congressman Henderson, "our Lord did not equivocate. His reply, 'Render unto Caesar the things which are Cae-

Finance Chairman Says \$5,000 Needed In Harnett

Why Blalock Is For Preyer

Dunn Mayor George Franklin Blalock, announced yesterday as finance chairman for the Preyer forces in Harnett, released a statement today giving his reasons for supporting the Greensboro gubernatorial candidate and said he would "be glad to personally debate any Lake or Moore follower who would impugn Judge Preyer in any way."

At the same time, Mayor Blalock said he has already begun a drive to raise \$5,000 in contributions from Harnett citizens to help finance the Preyer vote-getting drive. He said \$2,500 of the money would be sent to State headquarters as Harnett's assigned allotment and said the other \$2,500 would be spent within the county as the Preyer forces see fit. Co-managing Judge Preyer's campaign in Harnett are Robert C. Bryan, popular young Dunn attorney, and Josnille Willbourne, prominent Lillington business man. Mrs. Dot Snipes of Dunn heads up the woman's division. **PREVIOUSLY WRITTEN OFF**

Th Dunn mayor said he was highly optimistic over chances of Judge Preyer carrying Harnett, which went overwhelmingly for Dr. I. Beverly Lake four years ago and has been regarded as a Lake stronghold in the current campaign. "I understand State headquarters was going to write Harnett County off as a lost cause, thinking nobody but Lake could possibly win in Harnett. But after a survey of the county and learning of the strong trend toward Judge Preyer, we feel optimistic; in fact, almost confident," added Blalock. Mayor Blalock declared that Preyer's life "is balanced and well- (Continued on Page Five)

Camera Aboard To Make First Moon Close-Up

CAPE KENNEDY (UPI) — The United States today installed a camera-carrying Ranger probe in an orbiting station in space, then shot it outward on a planned 240,000 mile trip to take the first closeup pictures of the moon.

A silvery Atlas-Agena rocket seeking the nation's second space triumph in two days, boosted the 804-pound Ranger into a "parking orbit" around earth after blasting off at 10:49 a. m. (EST).

About 25 minutes later, as it soared 115 miles above the Indian Ocean, the Agena rocket was restarted in an attempt to push the speed of the scientific package to 23,800 miles per hour — enough to carry it all the way to the moon.

The federal space agency said that tracking information from ground stations indicated that Ranger "was where it should be" on the long, looping flight toward the moon.

This indicated the Agena second stage had fired for the second time as planned.

Jet Propulsion Laboratories (JPL) said that, "as far as we are concerned the spacecraft is on normal course and has separated."

It was this nation's first moonshot in 15 months and if everything went as planned, Ranger would provide a barrage of closeup photographs as it dived to a crash landing on the moon's surface early Sunday morning.

Hopefully, it would end a frustrating series of 14 previous failures in as many attempts at the moon which has come to be regarded as this country's most allusive target in space. The Soviet Union has scored two moonshot successes both in 1959.

Scientists said the Ranger journey would take about 66 hours.

URGENT NEED

Contributions of household furnishings, bed linens, kitchen utensils, clothing, etc. are being accepted for the Shelton Horne family whose home was razed by fire early Monday morning. Nothing was saved in the fire. Contributions can be made to Rev. Frank Davison, pastor of the First Presbyterian Church of Erwin, or to Mrs. Sonny Davis at 305 North 12th Street, Erwin.

Early Edition of the Record Friday

It's Moving Weekend!

Friday's edition of The Daily Record will go to press about noontime, much earlier than usual. This is moving weekend for The Record, which makes Friday's early presstime necessary. The Record is moving to its new location between North Carolina Natural Gas Corp. and Dunn Production Credit Association on East Cumberland Street, closer to the business district and more convenient to the public.

Even before the press starts rolling Friday, a crew of workmen will begin the almost-herculean task of dismantling the other heavy equipment used to publish The Record.

Moving a newspaper plant is no simple matter, but a big complicated operation requiring all sorts of specialized technicians, and special equipment.

It means dismantling, moving and setting up again approximately 30 to 40 tons of heavy machinery and other equipment.

Ernie Lohndorf of the Goss Printing Press Co. in Chicago arrived by plane last night to supervise the job of moving the big press used in publishing The Record. This press alone weighs slightly over 26,000 pounds.

The Record plans to make the move without missing a single edition. Weeks of preparation have already gone into the task in order to make this possible.

Cooperation of the public in arranging early all ads and news copy will be greatly appreciated.

In Address To Benson Chamber Tonight:

Helms: Reject All Socialism

LYNDA BIRD'S CHUM—Warrie Lynn Smith of San Antonio, Tex. (right) is greeted at the White House by Mrs. Lyndon Johnson and her eldest daughter, Lynda Bird (left). The girls, classmates at Texas U. last semester, will register at George Washington U. Lynda Bird has invited Miss Smith to live at the White House during the college year.

By Pro-American Forces In Viet Nam

Military Rule Is Overthrown

SAIGON, South Viet Nam — Tough, pro-American Maj. Gen. Nguyen Khanh overthrew the ruling military junta today in a bloodless coup he said was necessary to "sweep away the Communists and traitors who are in favor of neutralism."

The 36-year-old Khanh, commander of the key 1st Army Corps, apparently was backed by most if not all of the leaders of the South Vietnamese armed forces in toppling the three-month-old junta shortly before dawn without firing a shot.

So swiftly and efficiently was the coup planned and carried out that Saigon appeared completely normal on the surface late in the day, save for the presence of troops stationed at key points.

Khanh said in a broadcast over Saigon Radio that he acted to prevent a French-inspired neutralization of Viet Nam. He hinted the ousted junta members had been plotting with French agents to

this end. Saigon Radio broadcast a decree signed by 17 Vietnamese army generals and large number of

colonels, which said the youthful Khanh had replaced Maj. Gen. Duong Van Minh as chairman of (Continued on Page Two)

Some Called Too Often

Judge Wants Jury Lists Improved

Superior Court Judge Edward Clark of Elizabethtown has expressed concern over the frequency of jurors serving in Superior Court sessions in the county.

Judge Clark requested County Commissioner Alex. Cameron to make changes to avoid such a recurrence.

The judge also announced that his policy in future court sessions here would be to excuse any prospective juror who has served less than two years prior.

Clark said he would inform Superior Court Judge William Y. Bickett of Raleigh of the Harnett situation.

Mrs. Inez Harrington, register of deeds, who is charged by the county commissioners with preparation of the jury lists, said that jurors doubling up could be caused by two factors: owning property in more than one township and drawing the same name from a new jury box.

Mrs. Harrington's office prepares the jury reservoir from property tax abstracts. She says that commissioners purge the lists before they are put in the sealed box for selection throughout the year.

The last new list was prepared late in 1963, she said.

Clark made his request for a change during his session of Harnett Superior Court last week. He recalled one juror whose face he'd seen at least twice in four months.

A random check of Superior Court jurors who have served recently showed a number of examples of Judge Clark's concern. Jurors and terms they served included:

W. H. Prince, June 1962 and December 1962; L. N. Shaw April 1963 and November 1963; Woodrow W. Salmon April 1963 and November 1963; Robert E. Flowman, Sept.

WRAL-TV Exec Raps Loss Of Man's Freedom

Raleigh television commentator Jesse Helms, in an address to be delivered to the annual banquet of the Benson Chamber of Commerce tonight praised the worthiness of Chambers of Commerce as "guardians of free enterprise principles," attacked the encroachment of government on individual rights and called for rejection of socialistic practices and a return to the basic principles which made America great.

Mr. Helms, vice president of WRAL-TV and one of the State's most popular television personalities, has a program entitled "Viewpoint," on which he discusses the issues of the times twice daily.

Declaring that responsibilities must be assumed along with freedoms, calls for an epidemic of personal responsibility, a sweeping willingness to admit that we've been sinning against God — holding our hands out to Washington — for long enough.

"Servant or Master"

"We have got to spread the understanding," he admonishes, "that government will either be man's servant or his master. It can't be both."

"This means," explained Mr. Helms in his prepared address "that we must reject all socialism — not just that which the other fellow enjoys. If we mean what we preach about free enterprise and capitalism and liberty, then even the sugar-coating on our own little mess of government potage must of necessity taste bitter upon our tongues."

"It is a difficult choice... We have got to stop worshipping the sacred cows of subsidies, controls and federal aid. Each feeds on your freedom, each has a ravenous appetite. If we really want freedom, we must be willing to fight for it, work for it, sacrifice for it."

Mr. Helms, who served as top administrative assistant to the late J. S. Senator Willis Smith until his death, has long been recognized as one of the South's top champions of freedom and his telephone number is (Continued on Page Five)

Raleigh Attorney Raps Scott Machine

Jordan Announces For Lt. Governor

RALEIGH — With the expressed realization that "this campaign will not be an easy one," Wake Senator John Jordan today announced his candidacy for Lt. Governor in the Democratic Primary.

Citing the importance of the State's No. 2 job, the Raleigh attorney declared, "the filing of this office is of great concern to the people."

He said his candidacy offers citizens an opportunity to vote for a candidate "who is free and unfettered and who can represent all the people regardless of class, color or creed."

In a reference to Robert Scott, Jordan said: "Already announced is a candidate identified with a powerful political machine of monstrous proportions."

ALSO RAPS BLUE

He said another candidate, an obvious reference to Cliff Blue of Aberdeen, "is being vigorously promoted by certain elements of the press seeking special privileges for themselves on the floor of the State Senate where the Lt. Gov. (Continued on Page Five)
