## Injuries Kill **Angier Child**

Harnett Coroner Bill Warren said today that he does not plan to hold an inquest into the death in the rioting that was triggered of Tony Ray Adams, 13-year-old son of Mr. and Mrs. Carson A. Adams of Angier, Route 1.

> The child died in Rex Hospital at Raleigh Wednesday afternoon as the result of injuries received when he and his sister jumped from the rear of a truck Monday afternoon. The sister, Connie, 14, is still a patient in the hospital.

"It now appears to be a plain case of accidental death and unwill be no inquest," said Warren.

The accident occurred five miles east of Angier. The mother Mrs. Eunice Adams, and three children, Tony, Connie and Susan, were helping Phillip Ray Johnson of Angier, Route 2 barn tobacco.

NEW YORK (UPI) -A survey of five key Southern states indicates Sen, Barry Goldwater could sweep much of the South in the November presidential election, pollster Samuel Lubell said today.

Lubell, as reported in the New York World-Telegram and Sun, said his interviews with voters revealed that more than a quarter of those who supported John F. Kennedy in 1960 "now talk of casting their balle's for Goldwater" rather than President Johnson.

"When all the voter-shifting is balanced out, my interviews show that as of today Goldwater would carry Florida and Virginia, probably South Carolina and perhaps even North Carolina."

"Instead of a conference", Moore said, "I suggest that the people will be interested in hearing your views."

Gavin had asked Moore to agree on keeping the race issue from becoming a political football. He had made his request July 23,
