## Report Says Smoking Doesn't Cause Cancer

bacco industry's research council said Sunday there was no laboratorp evidence to support claims that smoking causes lung cancer or heart disease.

Dr. Clarence C. Little, scientific director of the research council, said that despite 10 years of study 'the fact remains that knowledge is insufficient either to provide adequate proof or any hypotesis or to define the basic mechanisms of health and disease with which we are concerned."

The council's statement flicts with a report of the U.S. Surgeon General's office that medical evidence indicated a link between cigarettes and cancer.
