

On Reapportionment

Liberals Defeated In Senate Move

WASHINGTON (UPI) — The Senate Tuesday defeated a compromise amendment on state legislative reapportionment aimed at clearing away the major stumbling block to adjournment of Congress.

The vote was 42-40. The compromise drafted by a group of so-called liberals was a mildly-worded statement to express the "sense of Congress" that the states be given "reasonable time" to comply with the Supreme Court ruling that their legislatures be apportioned on an equal population basis. It was not binding but merely reflected the sentiment of Congress in formal form. The compromise would have replaced a stronger proposal by Senate Republican Leader Everett M. Dirksen which would have made it mandatory that the states be given until Jan. 1, 1966, to carry out of any court reapportionment orders.

The group which sponsored the compromise had vigorously opposed the Dirksen amendment with a talkathon which was snarl-

ing election year - adjournment plans.

In advance of the vote, Dirksen said the compromise failed to "come to grips with the problem."

Exhibits Winners

1st, Darryl Temple 2nd, Charles Matthews 3rd, Ralph Jernigan 4th, David Temple 5th; adult, Joe Bullock 1st, Earl Faircloth 2nd and Bobby Wicker 3rd.

Best Single Stalk of Soybeans: youth division, Ralph Jernigan 1st, Jimmy Britt 2nd and Baxter Thom 3rd; adult division, Earl Faircloth 1st, D. H. Faircloth 2nd, Wayne Faircloth 3rd, J. C. Bullock 4th, and Bobby Wicker 5th.

Best Plate of Sweet Potatoes: youth division, Mary Ellen Temple 1st, T. D. McCreary 1st, adults,

Best Dozen Eggs: youth division, none adults, J. C. Hallow 1st, Robert Womble 2nd; Mrs. Willis Temple 3rd; Willis Temple 4th.

Best Canning in Clear Jars: Mrs. Carolyn Goff 1st and Eugene McDonald 2nd.

Best Vegetables (Canned): youth division, Cathy Smith 1st, and S. S. Harrison 2nd; adult, Mrs. R. S. Harrison.

Best Jam: Mrs. Rudy Matthews 1st.

Best Jelly: youth division, Gail Holder 1st, and Helen Harrington 2nd; adult, Mrs. R. S. Harrison 1st.

Best Preserves: adult, Mrs. Sylvia Pechel 1st, and Mrs. Eugene McDonald 2nd.

Best Pickle, Cucumber: Mrs. R. C. Harrington 1st and Mrs. Rudy Matthews 2nd.

Best Peas: Mrs. Rudy Matthews 1st and Mrs. Carolyn Goff 2nd. Sewing: youth division, Gail Holder 1st, and Helen Harrington 2nd.

Best Cotton Dress, youth division, Gail Holder, 1st, and Helen Harrington 2nd.

Best Ladies Suit, youth, Gail Holder 1st, and Helen Harrington 2nd.

Best Art: youth, Patricia Ann Stark 2nd; adult, Mrs. Edgar R. Bain 1st.

Best Craft: youth division, Barbara Missett 1st; adult, Mrs. Henry Hamilton 1st with nine needle basket, and Mrs. N. W. Maness 2nd.

Gov't Seeking

bidding materials are available to contractors from the Design and Construction Division, Public Buildings Service, General Services Administration, 1776 Peachtree Street, N. W., Atlanta, Georgia 30309; telephone 876-3311, Ext. 5645.

Bids will be opened in Room 753 at the address in Atlanta on October 13, 1964 at 2:30 pm, EST.

Charlotte

investigation consisted of interviews with several persons including inmates at the federal prison at Stewart Air Force Base in Smyrna, Tenn., the state prisons for both men and women in Raleigh, and police departments in Raleigh, Newton, Richmond, Va., and Lancaster, S. C. The testimony was not released.

"After completing this report, it is the opinion of these six men and myself that one of the officers - Detective B. W. Stogner - under investigation was guilty of appearing in a public place while off duty in an intoxicated condition," Hord said.

The police chief said the offense occurred on Feb. 28, 1964. Two other officers who, along with Stogner, were exonerated. Their names were not known.

"I was in the process of suspending this officer (Stogner) and citing him before the Civil Service Commission when he informed me he wished to tender his resignation, which he did," Hord said.

Stogner, a member of the department since 1940, has been on an extended sick leave since April 3.

Ford To

"because it gives us a long night of bargaining when much can be done."

Reuther repeated that no matter how attractive the union's economic package might be at Ford, "we will insist that the work-contract problem be dealt with."

Reuther had said when he left Tuesday night that the UAW would return today and would announce its decision whether it would set a strike deadline.

Report on Road Jobs

The State Highway Commission today released a report on the construction of roads in Harnett County.

The following projects were supposed to have been underway but were held up by continued rain: one mile of SR 1716, access road to the Carrolite Corp. 1.5 miles of SR 1226, 1.6 miles of SR 1237, one mile of SR 1117.

2.4 miles of SR 1108, 1.4 miles of SR 1540, 0.4 miles of SR 1544, 0.5 miles of SR 1713 extension, 0.8 miles of SR 1006, 1.8 miles for new addition to Rainey Drive and Pridden Drive, 0.8 miles of SR 2014, 0.8 miles of SR 1427.

0.6 miles of SR 1115 (pave only), 3.7 miles of SR 1120 (pave only), 1.6 miles of SR 1218 (pave only), 0.6 miles of SR 1507 (pave only), 1.6 miles of SR 1722 (pave only), 0.3 miles of SR 1763 in Erwin (pave only).

0.1 mile of SR 1750 in Erwin

In New York Schools

Student Boycott

NEW YORK (UPI) — White parents kept tens of thousands of children out of classes for a second day today to protest erosion of the neighborhood school principle. A boycott leader said most students will return to school Wednesday.

The demonstration, scheduled to last only two days, was peaceful except for one isolated incident at a junior high school in Queens Village, which was picketed by 300 parents. Some of the pickets subjected three pro-integration demonstrators who showed up at the scene to name-calling and epithets.

Dunn Girl Gets Doctorate Degree

Mrs. Leon M. Ennis, Jr., the former Ella Gray Wilson and daughter of Mr. and Mrs. Leon Wilson of Route 5, Dunn, received the degree of Doctor of Philosophy in Physiology from the University of North Carolina at Chapel Hill on August 28.

While pursuing her graduate program she also served both as a teaching assistant and a research assistant in the Department of Physiology, which is a part of the School of Medicine at the University. As a teaching assistant she presented lectures and conducted experimental laboratories in physiology to pharmacy students and assisted in physiology teaching laboratories for medical, dental, pharmacy and nursing students.

Projects actually underway include SR 1793 in which 65 per cent of the grading and 50 per cent of the draining work was accomplished through the end of August; and on SR 2036, in which 40 per cent of the clearing, 35 per cent of the grading and 25 per cent of the draining work had been done through the end of August.

MRS. LEON ENNIS, JR.

Thurmond

electoral votes.

In 1952 Thurmond backed Republican Dwight D. Eisenhower for the presidency and in 1956 and 1960 staved aloof from the presidential race.

Thurmond's decision to bolt the Democrats came as news to party leaders and to his South Carolina colleague, Democratic Sen. Olin D. Johnston.

Johnston, a staunch backer of the Johnson administration, said Thurmond had not discussed the decision with him.

Thurmond's decision was foreshadowed earlier this year. In a television interview at Columbia, S. C., in July he said, "I know of no reason why... I should be in the same party with Sen. Hubert Humphrey and Sen. Joe Clark of Pennsylvania because we just don't stand for the same principles."

Thurmond's defection will have no effect on the party balance in the Senate. The Democrats will hold a commanding 66 to 34 edge.

Thurmond will, however, risk his seniority. He is the fourth-ranking member of the Commerce Committee and the seventh-ranking Democrat on the Armed Services Committee.

Thurmond has been noted most prominently for his stand against all civil rights legislation. He was a leading participant in the anti-rights filibusters of 1957, 1960 and 1964. His voting record closely parallels that of Goldwater.

Thurmond, a native of Aiken, S. C., has served as a state senator, circuit judge and governor of his state. In 1964 he was elected to the Senate as a write-in candidate, defeating the "official" Democratic candidate for the seat once held by the late Sen. Burnet R. Maybank.

SOCCER WARM-UP — Richard Timberlake of Raleigh (center) watches Tony Tabbili of Teheran, Iran (left), pass off to Sam Khoshaba of Kirkuk, Iraq, in the year's first soccer drill at Campbel College.

WHAT IT IS

Science is constantly expanding the bounds of human knowledge—and of human communication. From the ton-gram to the picture-telephone, inventors have sought new ways to help men communicate with each other over greater and greater distances and at greater and greater speeds. These scientific inventions and discoveries have been utilized with tremendous effectiveness in the arts, enabling men to project the light of their ideas and images to the darkest corners of the earth—through printing, photography, radio, motion pictures, television and, now, Electronovision.

Electronovision, and its offshoot, Theatrofilm, combine the latest electronic and optical techniques so that audiences everywhere in the world may see an outstanding stage play, or any other similar event, exactly as it is performed on Broadway—but at popular prices, approximating those for first-run motion pictures. It thereby brings within the financial reach of the general public the finest, and the most elaborate and expensive, of stage productions, operas, concerts, plays or arena spectacles.

HOW IT WORKS

The Electronovision process, which produces Theatrofilm, involves a developmental series of steps, as illustrated in the diagram above.

Step 1: Electronovision cameras photograph electronically the play or event being enacted. As many as 15 Electronovision cameras, the number utilized for Richard Burton's "Hamlet," may be operated simultaneously. Of particular importance is the lighting innovation developed by Electronovision (see inset). Ordinary motion picture or television cameras require intense light—and, of course, the large amount of equipment necessary to produce that light. Electronovision may operate with only available light, as in a darkened theatre.

Step 2: The images captured by the Electronovision cameras are transmitted electronically to a specially equipped monitoring board, located apart from the stage area.

Step 3: Cables carry the impulses to mobile stations that are fully operational for instant recording and transmission.

Step 4: Electronic converter changes the recorded impulses to the necessary size and shape for Theatrofilm projection.

Step 5: Combining the latest developments in optics with those in scientific packaging makes possible the mass distribution of the Theatrofilm product.

Step 6: Audiences in local motion picture theatres may view the "live" Broadway production on the Theatrofilm screen.

WHAT IT MEANS TO YOU

Electronovision Theatrofilm is important to you and your family. For the first time, you will be able to see in your own community, at your own local motion picture theatre, the most important Broadway attractions and other events. Only a limited number of people were able to go to the Lunt-Fontanne Theatre in New York to see Richard Burton in "Hamlet," hailed as one of the outstanding theatrical achievements of all time. The audience was limited by geography, by the small number of seats available and by the price of tickets to Broadway productions. Now, through the magic of Electronovision Theatrofilm, Richard Burton's "Hamlet" is brought to you and your family. You will see the entire production, in full, as though you were sitting in the theatre in New York.

And this is only the beginning. The success of Richard Burton's "Hamlet" will make certain that you and your family will see many other important events in your community theatre through the revolutionary new process of Electronovision, a modern miracle of the electronic age.

Education from the University of North Carolina at Greensboro and a Master of Arts degree in Health and Physical Education from the University of North Carolina at Chapel Hill. She is a former teacher of the eighth grade in Dunn High School, where she also coached the high school girls' basketball team. She has also served as Director of Health and Physical

Education at Saint Mary's Seminary - Junior College, Saint Mary's City, Maryland, and as Assistant Professor of Health and Physical Education at Furman University, Greenville, S. C.

Her husband, Leon, is pursuing a doctoral degree in the School of Business Administration at the University of North Carolina at

Chapel Hill. Both Leon and Ella Gray are former residents of Dunn and are now residing in Chapel Hill.

The family of the late J. H. and Maggie Westbrook Lee will hold their annual reunion on Sunday at the Bentonville Community Building on Route 1, Four Oaks.

The lunch will be served at 12:30 p. m. Those attending should take picnic baskets.
