for Goldwater himself." "There is a great surge of conservatism in this country, but I think it was confused with extremism or something else and the message did not get across," he said.

Blames Negro Bloc Vote
Admitting that Republicans "took a shellacking," Saxon said "The bloc voters beat us," referring to the heavily Democratic Negro vote. He estimated that 99.5 per cent of the state's 200,000 Negroes voted the Democratic ticket.

The Republicans not only went down to defeat in the races for governor, lieutenant governor and six Council of State offices, but saw Democrats chop away at what little strength they had in the General Assembly.

The Democratic sweep cost the GOP seven of its 21 House seats and one of its two Senate seats. The final lineup from complete but unofficial returns showed: House 130, Democrats 106, Republicans 14; Senate 50, Democrats 49, Republicans 1.

ly as a courtesy to the 16 doctors constituting most of them in the county, who petitioned the board for the meeting.

It has been indicated that no concrete action will be taken until the new county board takes office in December since a majority of present members will retire.

Members of the medical staff at Betsy Johnson, several of whom asked for the county meeting, have since withdrawn their signatures and declined invitation to the Friday night meeting.

Dunn citizens voted 99.6 per cent for the new hospital earlier this year but Mayor Blalock, on the basis of new information he said was not available to him at the time of the vote, has since advised against it. He says the project is too big for the town and could bankrupt the fiscal solvency of the town. He now favors the county hospital.

County officials indicate they won't move until the Dunn issue is settled. Dr. Leslie Campbell, president of Campbell College, called for an end to the controversy. He asked for cooperation of Dunn with the county hospital move if it falls. There has been talk of adding nursing to the curriculum of Campbell if the county hospital is approved.

campaign. Sen. Herman Talmadge rode Johnson's bandwagon while it was in Georgia, but had little else to say.

But no Democratic leader was believed willing to try to purge those party officials who sat on the fence or defected, at lower levels, in droves to the Republican party.

a county court seat, A. W. Willis, Jr., also a Negro, was elected to the Tennessee legislature in Memphis.

In South Carolina, there was a lone exception. In an Aiken precinct which is 60 per cent Negro, Sen. Barry Goldwater won by two votes.

Put in a big Columbia, S. C., precinct with only a few whites, Johnson took 2,203 votes to Goldwater's 55. Negroes stood three abreast in a line that circled an entire block to vote. In Charleston, a Negro precinct went 781-30 for Johnson.

The all-Negro town of Mound Bayou, Miss., gave Johnson every one of its 257 votes. One Richmond, Va., Negro precinct went to Johnson 1,256 to 4, and another 649 to 4, while a middle-income white precinct voted 405 to 194 for Goldwater.

Atlanta, pushed by a big Negro vote, went for Johnson, but it failed to offset the Goldwater surge in rural Georgia.

"The Chapter has received advances from headquarters amounting to over \$35,000 during its 26 years of operations here, and these funds do not have to be repaid. Most of the funds donated by our people have remained for local patients."

"Although many other North Carolina Counties contributed more than Harnett toward the March of Dimes research that gave us both the Salk and Sabin vaccines, our County has received the same benefits as others, and many lives have been saved because of these March of Dimes programs."

To Have Stronger Voice In Congress

CIO Candidates Win

WASHINGTON (UPI) — At least 233 House members — a bare majority — were elected Tuesday with the support of the AFL-CIO's political arm, a United Press International survey showed today.

Nine of 11 Republicans and the rest are Democrats.

The labor federation's Committee on Political Education (COPE) also backed 117 candidates who were defeated in the 435 House elections across the country.

But its 365 batting average and the apparent net gain of 37 Democratic seats raised AFL-CIO leaders' hopes of repealing "right-to-work" laws in 20 states by congressional action next year.

COPE officials said they did not expect every congressman they endorsed to follow organized labor's wishes. But their first estimates indicated the size of the "liberal" bloc in the House may be increased by 25 or more in the 86th Congress.

Prospects Look Better
This also led to optimism at AFL-CIO headquarters on the prospects of passing such union-supported perennials as health care under Social Security and a boost in the \$1.25 federal minimum wage.
