FOOD TOWN'S PLEDGE TO YOU

We do not increase the price of any item in our stores unless the manufacturer's cost to us increases. When Food Town is forced to increase a price, items on the shelves marked at the lower price will be sold at the lower price. For this reason you may sometimes see two of the same item with different prices. Each will be sold as marked. If the price decreases, that item on the shelf is marked down right away. What could be more fair?
