

We're going to change our bag again.

For 25 years, A&P was the first to use a paper bag because we took more pride in our products and that made our bags stand out. Now we've been told about it. We've decided to make a new bag that's better and is good for the planet.

Action is being taken with a change in direction. We've picked 7 people with experience in turning words into action. They'll support a new program.

room to grow. *Putting more of*
