

CMS Announces

1975 Summer Programs

The Charlotte-Mecklenburg Schools this summer will offer a number of programs for students of different ages.

"In addition to the regular summer school for junior and high school students, there will be a number of special programs at the elementary level," said Mrs. Nancy Davis, new administrator of the summer programs.

"We are continuing our efforts to expand the secondary summer school to be located at Garinger High School," Mrs. Davis said. "We will offer repeat work as well as a variety of new work in all academic areas."

A number of special music courses will be offered including jazz band, advanced placement instrumental music, and choral lab. Other courses planned include earth-space science, horticulture, energy crisis and recycling, modern rock poetry, art and summer stage.

Advanced registration is underway through junior and senior high school counselors or through the summer school office at the Education Center (Telephone 372-8620, Ext. 388). Class sizes are limited. Students are urged to register as soon as possible before June 10. All registrations must be accompanied by full payment.

Advance payment will make possible class assignment and complete registration by mail so a student would only report directly to class on June 16, or July 6 for second session. A late registration for remaining available classroom spaces will be held at Garinger on June 15.

Because summer sessions must be self-supporting, tuition will be \$35 per semester course at the ninth grade and high school levels (five hours per day, three weeks, one-half unit credit) and \$70 per year for a two-semester course (five hours per day, six weeks, one unit credit).

Tuition for courses at the seventh and eighth grade levels will be \$35 per course which will meet two and a half hours per day for six weeks.

The first summer session will begin June 16 and end July 5. Registration will be June 15. Second summer session will begin July 6 and end July 23 with registration on July 5.

Transportation will not be provided by the school system. Garinger is served by public transportation.

Other summer programs include the following:

There will be a special four-

week reading program for students in grades one through six at Dilworth Elementary School, June 21-July 16. The program meets from 8-10 a.m. Monday through Friday.

Sponsored by the school system in conjunction with Appalachian State University, the program offers small-group instruction to students at all levels of reading ability. Special emphasis is placed on changing student attitudes toward reading.

Two hundred students will be accepted on a first-come, first-served basis. The tuition is \$45. Applications are available at any elementary school. For more information, contact Ms. Smithie Gibson at 334-5616.

Irwin Avenue optional Open School will offer "Stuff 'n Such," a summer enrichment program, June 14-July 9 from 8:30 a.m. to 12:30 p.m. daily. One hundred students (grades one through six) will be accepted on a first-come, first-served basis. Tuition will be \$45.

The program will be designed to review old skills and teach new skills through instruction custom-tailored to meet individual student needs. There will be courses in swimming, tennis, photography, and radio and television techniques.

Registration information is available at each elementary school. For more information, contact Irwin Avenue School at 334-5339.

From June 14-July 9 music and sports camps will be operated at five schools for students presently enrolled in fifth and sixth grade band or string instrument classes. Programs will be at Cochrane and Ranson junior high schools and Rama Road, Montclair and University Park elementary schools.

The four-week program will meet from 8:30 a.m. to 12:30 p.m. Monday through Friday. There will be two hours of team sports activities and two hours of band or orchestra activities. The program will feature overnight camping trip.

A total of 75 students will be served at each location. Application deadline is May 25 on a first-come, first-served basis. Tuition is \$30. For more information, contact Miss Barbara Koesjan, director of performing arts, at 372-8620, Ext. 264.

A summer mathematics program for elementary students (1-6) will be held June 15 through July 9 (except July 5) at Rama Road Elementary School. It will meet weekdays

from 8-10 a.m.

In the program, attempts are made to diagnose the math achievement level of each child then move him or her forward. There will be individual and small group instruction.

Tuition will be \$30 per student. Registration forms are available in each elementary school. For more information, contact Steve Wallin, director of math, at 372-8620, Ext. 266.

The eighth annual Environmental Tour for rising tenth graders and high school students will be June 13 through July 3. The tour, which will include the southwestern United States, is co-sponsored by the school system, the Charlotte Nature Museum, and the Mecklenburg Youth Extension Service.

This year's theme is "From Metropolis to Desert Cave-Understand Man's Domain." Highlights of the 3,700 mile journey through eight states will include New Orleans, a raft trip down part of the Rio Grande River, Carlsbad Caverns and the Guadalupe Mountains National Park.

Thirty-five students will be chosen. Students will receive one-half semester unit of elective credit for satisfactory completion of required work. Cost will be \$300 per person.

For further information, contact James R. Johnson, coordinator, at Garinger High School (Telephone 537-8261).

There will be a special remedial and enrichment reading program for students in junior and senior high school at Eastway Junior High School. It will meet weekdays from 8 to 10:15 a.m. June 21 through July 16. Tuition will be \$45.00. For more information, contact Dr. Charles Hickman at 372-8620, Ext. 271.

Driver education courses will also be offered at a number of locations. More information will be announced in the near future.

Horace Drumming Is

Little Above Average

By James Oscar Cuthbertson Post Staff Writer

Sometimes he can be seen sitting on the block at 100 Beatties Ford Rd smiling and carrying on a casual conversation in the warm air with a fellow Smith student.

Then again, you see him playing cards or chess in the Student Center.

On the other hand he may be swimming, boating, playing basketball, tutoring junior high and elementary students.

He is an average student on a black university campus. Except in this case Horace Drumming, 21, a rising Senior accounting major at JCSU, is a little above average or an exception to the rule.

The hope of black prosperity and equality rest upon our Black students' achievements and gamine knowledge in institutions of higher learning.

A Beta Club 1972 graduate of Calvin Coolidge High School in Washington, D.C., the son of Mr. and Mrs. Wallace Drumming, born in 1954 in Johnson, South Carolina has been heavily involved in Kappa Alpha Psi, Fraternity, Inc. serving as keeper of the Exchequer (1973-76) and as the Pole-

march (1976-77).

Making phone calls to delegates for the United Negro College Fund and setting up a Health Program have consumed the time of the brilliant student who likes John Amos of "Good Times", multi-talented Diana Ross, the book "Helter Skelter", all beef meat, and doughnuts.

Born a Capricorn, if the tall, lean handsome student who considered Howard, JCSU and S.C. State went back to his high school he would advise the student to decide if college was really for them because some people would gain more out of going to a trade school.

He notices little difference about the South. As far as people are concerned there is no difference. People from the North tend to think they are above the South sometimes, however.

The fact that he pledged Kappa Alpha Psi was not a coincidence. "My father is a Kappa; he's actually in the D.C. Alumni," smiled Drumming.

What profit is gained from a fraternity?

"It's hard to say," he said. "It's something you have to experience."

Luxury's a good reason for choosing a full-size car.

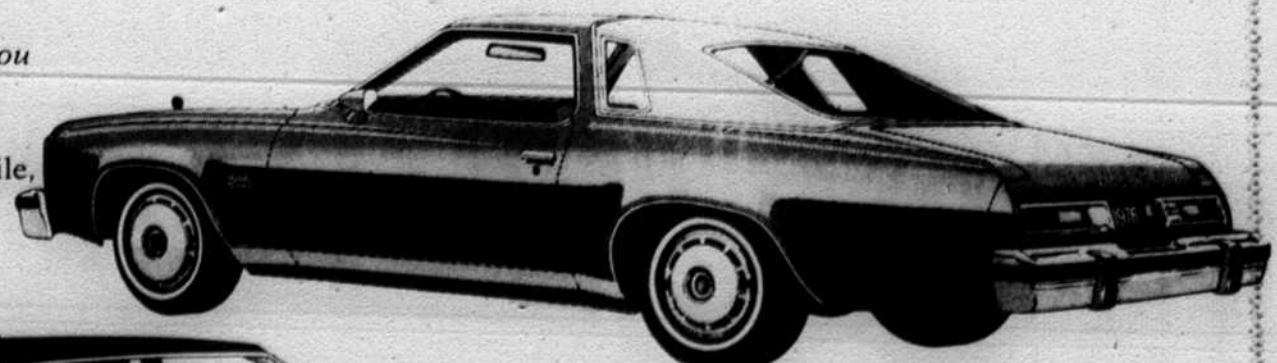

And with GM, it's also a good reason for choosing a mid-size car.

Pontiac Grand LeMans

Buick Regal

Chevrolet Chevelle Malibu Classic

Oldsmobile Cutlass Supreme Brougham

MARK OF EXCELLENCE

There was a time when you had to go big to get luxury like this. No more.

GM's 1976 mid-size cars offer upholstery choices in fine velours, luxurious knitted fabrics and soft vinyls. Thick cut-pile carpeting. Sound conditioning material. Smooth, relaxing rides on computer-selected full-coil suspensions.

And just to be practical, all of our mid-size coupes and sedans are rated for six passengers when equipped with front bench seats.

It sometimes takes a lot of will power to keep from buying more car than you need. But with luxury like this at mid-size prices, we're giving your will power a lot of help.

We want you to drive what you like and like what you drive.

General Motors. Maker of Chevrolet, Pontiac, Oldsmobile, Buick and Cadillac.
