

West Charlotte Players To Present "Summer And Smoke"

By Dianne Simpson
Post Staff Writer

The Performing Arts Department of West Charlotte High School will present

"The Challenge" Is WSOC-TV Thursday Movie

Darren McGravin, James Whitmore and Broderick Crawford star in the gripping story of two brave men who hunt each other on an uninhabited Pacific Island in defense of their countries in "The Challenge," WSOC-TV's Thursday Night Movie December 1 at 7:30 p.m.

A United States satellite capable of delivering a nuclear warhead around the earth every ninety minutes mysteriously lands in the western Pacific after it was scheduled to be picked up in the Atlantic

"Summer and Smoke" as its fall production of the 1977-78 season.

The play, written by Tennessee Williams in the early

1900's in Mississippi, is directed by West Charlotte High's Drama instructor Betsy Viracola.

The play is centered around

a Ms. Alma, the daughter of a preacher and who is the possessor of strong moral values. She is madly in love with a doctor, her next door neighbor, who doesn't want to have any strong feelings for her because of her disagreement with her beliefs, but what if Ms. Alma would change. The play moves from disappointments, heartbreaks, love affairs and a false oncome of hope to gloomy despair.

The characters of the play are Ms. Alma played by Ann Thomlinson, John-Chuck Millisaps; Rev. Winemiller-Gray Moody; Mrs. Winemiller-Vic-

kie McGill; Dr. Buchanan-Eric Winkenworder; Nellie-Mae Johnson; Rodger-John Love; Mrs. Bassit-Danette McLaurin; Rosa Gonzales-Langley Watts; Pappa Gonzales-Martin Belk; Alma (as a child)--Kim Schradder and John--"Danky" Pinkney.

The set was built by Robbie Schnexnayder and designed by Kim Page.

Show dates are December 2 and 3 with show time at 8 p.m., and on December 4 at 2 p.m.

Ticket prices will be \$2 for Adults and \$1 for students, and a free admission to the senior citizens to the Sunday Show.

upon re-entry.

A small hostile Asian nation has sent a ship to retrieve the satellite, claiming the right of salvage in international waters. The U.S. Navy has sent destroyers to surround and blockade the craft but can not approach closer without Red China possibly coming to the aid of its neighbor.

To avoid a holocaust, a lone American is pitted against one of their men...the survivor's country winning the satellite. After several confrontations, a grudging respect develops between the unseen adversaries as they wit and outwit each other.

Trichology Corner

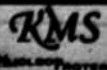

Mr. Charles R.B.

QUESTION: Why do some Beauticians say Barbers are not supposed to do perms?

ANSWER: Most are ignorant of their own history; others are afraid of competition. The first perm known as process cream was invented and sold by a Barber. Processing was only done in Barber Shops, and mostly for men. Women without air conditioning, working in hot kitchens, factories ect. had problems keeping their hair pressed, so they started going to Barber Shops to get their hair chemically straightened. The inventor of the process cream noticed this and introduced a milder cream called a relaxer for women. In most northern states, most relaxers are still given in Barber Shops for men and women. Most Barbers who work in perms and chemicals today are highly trained and skilled people called Trichologist. The south traditionally a little slow is catching up fast.
