Again...this isn't my top 50 for the year...just a list of good tunes on albums that you don't hear much. So, if you've got some of these...albums but never play these songs...do it.

RECORD RACK...

It's the summertime lull... not much new music worth mentioning. For that reason, I thought I'd do something a little different...and I hope you find it's a good bonus.

There are many songs I've heard since the beginning of the year that deserve more air time than they get (in fact, some I don't remember hearing at all). At any rate... here's a list of jazz, and soul sounds—slow and fast...that caught my ear as tunes well done.

So if you're looking for a little variety of sound...here's a rundown of good cuts that you don't hear much of. The name is in parentheses.
