**Creek Quarterly Meeting**

Antioch Baptist Church will host the Lanes Creek Quarterly Union Meeting on Saturday, Dec. 30 from 10:30 a.m.-4 p.m. The Union is mainly composed of deacons, laymen and ushers of Lanes Creek Baptist Association. The service will consist of a sermon, business deliberations and a discussion.

Rev. H.L. Nickleson, pastor of Macedonia Baptist Church, is president of the Union.

Antioch will observe their annual New Year's Watch Services on Sunday, Dec. 31 at 10:30 p.m.-12 midnight. The church's Laymen League is sponsoring the services, which will include music, meditation, prayers and a brief New Year's message by Rev. Preston Pendergrass, pastor of Antioch. Rev. William Brown is president of the Laymen's League.

An Ordination Service for four ministers will be hosted by Antioch on Sunday, Jan. 14 at 4 p.m. at the church. Revs. Willie Crank, Cleotis Jones, Abraham Lockhart, and Charles Moody will be formally ordained to the gospel ministry by the Ordaining Council of Lanes Creek Baptist Association. Rev. L.D. Parker, moderator of the Association, will deliver the sermon.

The public is cordially invited to attend these services. Antioch is located on 232 Skyland Avenue.

**Care Center**

**Workshop**

A workshop on "How to Pick a Child Care Center" will be held at The University of North Carolina at Charlotte, Wednesday and Thursday, January 10-11.

Sponsored by the Women's Studies Committee, the first meeting is scheduled at 1 p.m. January 10th in the Gold Room of Cone University Center. The second session is scheduled at 7 p.m. January 11th in Room 9 of Cone University Center.

Dr. Bobbie Rowland, associate professor of Human Development and Learning at UNCC, will conduct the workshop. Practical suggestions on how to effectively choose and evaluate a child care center will be presented. The book *Choosing a Child Care Center* will be available at \$2.50 per copy during the workshops.

The Women's Studies Committee is presently working on a project concerning the care of children as it relates to the UNCC campus. This workshop is part of a series planned to develop an interest in nurturing and caring for young children in the university community.

Dr. Rowland says the Women's Studies Committee is also planning a semester-long celebration of the International Year of the Child in 1979, climaxing with the "Week of the Young Child" April 2-7.

For more information contact Dr. Rowland in the College of Human Development and Learning, telephone 597-2171.

**Fully Cooked**

Know what kind of ham you are buying. Some need to be cooked, others are fully cooked and can be eaten as they come from the package. Check the label and read carefully. If you have any doubts, cook thoroughly.

President Carter held another meeting on December 11 at the White House with top black leaders to discuss the Administration's anti-inflation efforts and the next federal budget. Blacks are particularly concerned about the fate of social programs and have urged the President not to propose a budget

that would hurt the needs of blacks and the poor. To the President's immediate right are Benjamin Hooks, Executive Director, NAACP and Clarence Mitchell, Director, NAACP's Washington office. (White House Photograph).

**Keep Warm With Head Covering**

By JULIE BENDER  
N.C. State University  
Use your head in keeping warm this winter.  
If you cover your head with a hat or scarf and keep your torso well-covered, you can prevent heat from being lost from your head.  
Then your body will send heat to your hands and feet so you'll feel warm all over, say specialists with N.C. Agricultural Extension Service.

**BEEF FAT**  
The fat on beef you see in the grocery store may be yellow or it may be white.  
The color tells what the

animal has been fed.  
According to agricultural extension specialists at N.C. State University, cattle fed a large proportion of grass as part of their rations generally store carotene in the fat. This gives the fat a yellow color.

Cattle fed a ration high in corn, milo, or other feed grains have whiter fat with a low carotene content.

**FIRE**  
Don't let the warm glow of the holidays come from a fire.

Always use heavy duty cords for outdoor lighting; rain or snow can cause short circuits in strings of lights not

specifically made for outside use, according to the NCSU agricultural extension specialists.  
Make your indoor cotton and gauze ornaments flame-resistant by dipping them in a gallon of boric acid.  
Turn off all Christmas lights at night and when you leave your home.

**Clean Kitchen**

When handling food, be sure to begin with a clean kitchen, clean hands and clean equipment. Never place raw meat on a surface without cleaning the surface before and after use.
