Commencement

Speaker

ORANBURG, S.C.—Dr. Roy O. McClain, minister at the First Baptist Church of Orangeburg, will be the 83rd commencement speaker at South Carolina State College in the Bulldog Stadium Sunday, May 13 at 9:30 a.m.

The native South Carolinian was chosen by Newsweek magazine as "One of the Ten Greatest Preachers in America." He has held pastorates in Indiana as well as his home state and was pastor at First Baptist Church of Atlanta, Ga., for 17 years. He served as chaplain in the U.S. Armed Forces as a Lt. Col. receiving five bronze stars, a Presidential Citation and the Meritorious Service Award.

For four consecutive years he was heard on the Baptist Hour over 565 radio stations throughout the country. He also appeared on the NBC-TV program, Frontiers of Faith.

While in Atlanta, he was a columnist for the Atlanta Constitution and several other newspapers. He has written three books, This Way Please, This I Believe and If With All Your Heart.

Dr. McClain has served as president of the Southern Baptist Pastor's Conference.

He is a graduate of Furman University, Greenville; the Southern Baptist Seminar, Louisville, Ky., and Mercer University, Macon, Ga. He did additional study at Harvard University in Cambridge, Mass.

Dr. McClain and his wife, Betty, have three sons, Dick, Steve and Mike.

Sloan Says New

P.O. Jeeps Use

Less Gasoline

Those new, all-white mail jeeps you may have noticed on Charlotte streets are not only different looking on the outside, they use less gasoline because they have a smaller engine, according to Postmaster O. B. Sloan.

The new white vehicles are powered by a four-cylinder engine instead of the present six-cylinder engine in the older jeeps. The Environmental Protection Agency gives the four-cylinder engine a combined city highway rating of 20 miles per gallon compared to 17 miles per gallon for the six-cylinder engine.

The all-white jeeps cost less to buy because they are painted a single color, and the Postal Service expects they will require less upkeep. The blue section of the older jeeps requires repainting as often as once every other year. Because white will stand up to weather conditions better, repainting will generally not be needed more than one time during the average eight year life span of delivery jeeps.

The Postal Service is phasing in about 9,000 of the white jeeps through October of 1979. It will repaint older vehicles in the fleet all-white but only as required.

Spring Cleaning

Spring cleaning time is also a good time to clean your thermostat.

Remove the cover and blow away any dust that has accumulated, urge specialists with the North Carolina Agricultural Extension Service.

They say this job should be done at least once a year.

All thermostats for heating and air conditioning should be on an inside wall or where they will not be subject to drafts.
