## McLawhorn Named Executive

### Director Of Urban League

by Susan Ellsworth  
Post Staff Writer  
James McLawhorn has been appointed Executive Director of the Columbian Urban League by its Board of Directors.

A native of Greenville, North Carolina, McLawhorn came to the League from Charlotte, where he was an administrative assistant to Rowe Motley, chairman of the Democratic National Black Caucus. McLawhorn researched issues relating to blacks. News releases were then prepared based on his research.

Prior to this position, McLawhorn was a commercial loan development analyst at First Union National Bank. His responsibilities included analyzing commercial loan requests, loan reviews and monitoring problem loan situations in the credit decision process.

As program management coordinator for the City of Charlotte, another position he held, McLawhorn has a B.S. Degree in Political Science from North Carolina A&T State University in Greensboro. He received a Masters Degree in Business Administration from the University of Miami in Coral Gables, Florida.

Among the organizations McLawhorn is affiliated with are the following: American Society of Planned Officials, American Society of Public Administration, the National Association of Planners, and Conference of Minority Public Administrators.

He was selected for honors such as "Who's Who Among Students in Colleges and Uni-

versities," recipient of the American Institute of Planners Award, Ford Fellow and Rockefeller Fellow. James McLawhorn is married to the former Barbara Campbell and they have one child.

**BY THE WAY...**  
By Joe Black

How many times have you grumbled when you read or heard how more than forty percent of our Black youths are unemployed? What thoughts came to your mind? Racism? Unqualified? Well, some thoughts come to my mind, but they are not racism nor unqualified.

All negatives in the Black community are not the result of racism, and I am proud of the thousands of youthful Blacks who have acquired college educations. Unqualified is an excuse the private sector will have to eliminate. But, my young friends, I want you to remember that acquiring an education should have done more than prepare you for a job, it should have also taught you how to think.

So, you haven't been able to find a position in the field in which you studied, but is that reason enough to sacrifice your pride and dignity. That's right! When you are not working, you are not only an unemployed statistic, but you are also without pride and dignity. You can't force business and industry to create new jobs, but you can retain independence and pride by working. Where? The same jobs that helped your parents and grandparents survive years ago... that's right, waiters, bellhops, and waitresses. As the old adage goes: "A bird in the hand beats two in the bush," and always remember that you can still look for your ideal position while working on the less desirable job.
