

# Adventures in Health Care Careers

Presented by

# Charlotte Memorial Hospital

Meet Pearlie Moore, R.T. She's a Radiologic Technologist Supervisor in the Emergency Room. Her adventure began in 1962 when she enrolled in the Charlotte Memorial Hospital Radiologic Technology Program. Since her graduation in 1964, she's been meeting the challenges of her career and growing with her field and the hospital.

"I would say, yes, come in to it. I have really enjoyed working as a Rad. Tech. because you get to deal with people . . . I love dealing with people."

Human interaction. The challenge of learning a field where you receive as much as you give.

"There's a lot more involved than you would think . . . most people don't know about X-Ray or Nuclear Medicine or Radiation

Therapy or Ultrasound . . . we get to go to all areas of the hospital and deal with people of all ages, including children."

Pearlie Moore's adventure has meant a lot to her.

"I think that maybe there are people out there that don't know that Memorial is offering educational programs . . . well, the Radiologic Technology program has been a fulfilling one for me."

Memorial not only offers adventures in Radiologic Technology, but Medical Technology, Nurse Anesthesia and Hospital Administration.

Interested in starting your own adventure right here in Charlotte? Contact the Personnel Department, Charlotte Memorial Hospital and Medical Center, P. O. Box 32861, Charlotte, N.C. 28232 or call (704) 373-2101.
