**Frolands Celebrating
First Anniversary
In Business**

Ray and John Froland, who own and operate the MAACO Auto Painting and Bodyworks center at 5621 North Sharon Amity Road, Charlotte, N.C., are celebrating their first anniversary in business this month.

Ray was formerly plant manager for the Rego Company in Elon College, N.C., before purchasing the MAACO center. He had also been inventory manager of process engineering for the same firm in Chicago. A native of Norway, Ray was in the Norwegian Army, and trained in Sweden during World War II. After the war, he came to the U.S. and obtained his bachelor of arts degree at Northwestern University.

Ray and his wife, Ellen, reside in Charlotte.

The MAACO concept was launched with a pilot operation in Wilmington, De., in 1972. Sales reached \$170 million for the chain in 1984, and in November of 1984 more than three million vehicles had been painted and repaired—a remarkable achievement in just 12 years.

Each MAACO center houses the latest sophisticated equipment and best materials to paint and repair automotive vehicles, while at the same time utilizing environmentally low pollutant materials. Each center aids the economy through sales, property and real estate taxes, local purchases, and employment of area residents.

National corporate headquarters are in King of Prussia, Pa.
