

It might take more than
motherwit to tell my children what
to do about AIDS.

I've taught my kids just the way my mother taught me. She gave me strong sense about what's right and wrong. She called it "Motherwit". That's why even as young as my kids are, they know their way around. But sometimes I have to draw the line, especially with AIDS out there. So I'm going to sit down and talk to my kids about drugs, sex, and AIDS. And I'll be

doing it all with a lot of love. That's what motherwit is all about.

For information on AIDS call 336-6028 or 399-2501. For an AIDS Test Call 399-2501. This has been a message from the Mecklenburg County Health Department.
