

# Signs Of Intelligent Life.

They're automobiles that are the result of millions of hours of thinking and rethinking by some of the world's most talented engineers and craftsmen.

They're a line of automobiles called Eagle.  
**EAGLE PREMIER ES.**

Premier ES is a rare combination of comfort for five and exceptional performance. It has the most interior room in its class,\* a fuel-injected 3.0 litre overhead cam V6 engine, and a four-wheel independent Touring Suspension System for superb handling.

As a result, Premier is the kind of passenger car that doesn't treat the driver like just another passenger.

#### **EAGLE SUMMIT ES.**

Although Summit is quite attractive on the outside, its real beauty lies on the inside.

Open the door and you'll find more room than you'd expect to find in a car its size. Making Summit very comfortable for four adults. And under the hood, you'll find a responsive, fuel-injected DOHC 16-valve engine. Making the driver very comfortable on the highway.

#### **EAGLE TALON TSi AWD.**

The newest addition to the Eagle line has the ability to start your adrenaline pumping even before you turn the ignition key. But once

you do, brace yourself. Talon has all-wheel drive for excellent handling as well as a powerful, turbocharged 16-valve engine.

If NASA built a car, this would be it.

In addition, every Eagle is backed by Chrysler's 7-year/70,000-mile powertrain protection and 7-year/100,000-mile protection against outerbody rust-through.\*\*

So see your Eagle dealer for a test drive. And discover some of the highest forms of intelligence on the road today.

**Eagle. Chrysler Motors'  
Newest Division**

CENSUS '90

Answer the Census.  
It Counts for  
More Than You Think.

\*Based on EPA Interior Volume Index and Ward's Intermediate Standard Class. \*\*Protects engine and powertrain for 7 years or 70,000 miles and against outerbody rust-through for 7 years or 100,000 miles. See limited warranty at dealer. Restrictions apply. Buckle up for safety.
