

city

When are we done? When does the construction cease and the city begin? When

do we decide what we're going to be when we grow up? Perhaps, when we realize that

we must have places to come together. Places we can lose our cares and find ourselves

in the city we call home. Places that transform Uptown from an office park into an elegant

centerpiece. So that our city can be complete. Call to voice your support, 388-3750.
