

# Amazing Siding: You'll never paint

PAID ADVERTISEMENT

Amazing Siding comes in a wide variety of decorator colors and styles. This includes an exclusive board and batten vertical siding that allows you to set your home apart from any other with its beautiful maintenance free look.

But Amazing Siding knew it simply couldn't rest on their looks alone, so they offered a superior product that's different than any other. They offer another exclusive product called the Amazing Ultra Wall insulation system that actually conforms to

the siding, making it feel more solid like wood. While other siding sometimes take a beating from hail or even weed trimmers, the Ultra Wall is so impact-resistant that satisfaction is guaranteed.

What all that means is your home is secure with Amazing Siding. Secure in that your resale value is higher. Secure in that your utility bills are lower because of that core of durable insulation surrounding your home. And secure that it is all under warranty.

In fact, the double life time, no fault war-

ranty sets Amazing Siding even further apart. The double lifetime warranty means that not only the original Amazing Siding customer is covered, but if the house is ever sold, the new owner benefits from a free non-prorated lifetime material warranty.
