Pianos---Pianos---Pianos. TTENTION of purchasers is respectfully called to a new and gigantic invention in Pianofortes now fully perfected, and before the public, known as HALL's CELESTIAL TRIPLE-STRINGED PIANO. The peculiarity of the CELESTIAL PIANO consists in its capacity for octavo playing with the single finger, an attainment hither-

to unknown to the Pianoforte.

The most ordinary performer is enabled by the aid of this improvement to produce effects in octavo playing that would confound a Talberg or a Listz. One of its chief excellences is its capacity to be used as an ordinary Piano of the sweetest quality of tone, and is instantly changed by the use of a common pedal to a combination so thrilling and majestic, as to captivate and charm the heart. These instruments are superior in power to two ordinary 7 octavo Pianos, while for sweetness, purity, breadth, and richness of tone, they challenge the competition of the world.

This is the united testimony of Professors and Amateurs who have tested the Celestial Piano. Ordinary Pianes of all sizes, new and second hand for sale at reduced prices.

THE GLOBE: The Official Paper of Congress, and Newspaper for the People.

Lord Brougham, in his "Historical sketches of Statesmen who flourished in the time of George the Third," gives some remarkable examples, showing the great loss sustained by England in the history of its statesmen, and of its national progress, through the imperfect state of parlianational progress, through the imperfect state of parliamentary reporting in former times. He opens his life of Lord Chatham thus:

cessful statesman and most brilliant orator that this country ever produced. Of Lord Somers, indeed, we can scarcely be said to know anything at all. That he was a person of unimpeachable integrity, a judge of great capacity and learning, a firm friend of liberty, but a cautious and safe counsellor in most difficult emergencies, all are ready to acknowledge. But the authority which he possessed among his contemporaries, the influence which his sound and practical wisdom exercised over their proceedings, the services which he was thus enabled to render in steering the constitution safe through the most trying times, and saving us from arbitrary power without paying the price of our liberties in anarchy and bloodshed—nay, conducting the whole proceedings of a revolution with all the deliberation, and almost in the forms, of an ordinary legal proceedinghave surrounded his name with a mild vet imperishable glory, which, in the contrast of our dark ignorance respect- chief; 3 doz. Oriental rops; 6 doz. Ess. Bouquet; Laing all the particulars and details of his life, gives the fig- vender Water; 50 doz. Hair Brushes; .50 doz. Tooth ure something altogether mysterious and ideal. It is nowunfortunately too late, by supplying this information, to fill up the outline which the meagre records of his times have left us. But it is singular how much of Lord Chatham, who flourished within the memory of the present | Wholesale and Retail, by generation, still rests upon vague tradition. As a statesman, indeed, he is known to us by the events, which history has recorded to have happened under his administration; vet even of his share in chringing these about little has been prese ved of detail. So, fragments of his speeches have been handed down to us, but these bear so very small a proportion to the prodigious fame which his eloquence has left behind it, that far more is manifestly lost than has reached us; while of his written compositions but a few let-

ters have hitherto been given to the world. "The imperfect state of parliamentary reporting is the reat cause of this blank. oblivion of all the masterly efforts of their minds, which, U. S. N.; received at wielding the power of Parliament, conducted the march of the government during their connexion with it, the history of the nation has also losi for want of the vigor and verity, the clearness, the freshness, and beauty with which its events and their causes might have been preserved in the

luminous eloquence of its oratrrs. The great mon who conducted our revolutionary struggle in the great Continental Congress have left no history behind them of the views and events which had their birth in their debates, except in the meager fermula of a journal. The fervid feeling of the hour, the impelling circumstances, the argument, the eager controversey, which set the subject in every variety of light, passed away with the breath Leave Smithville, Monday, Wednesday, and Friday that gave them utterance; and men who were not surpassed, in the opinion of Lord Chatham, by "the master statesmen of the world," have bequeathed to posterity nothing of the eloquence which guided our national councils but "the shadow of a name." Recent publications show how graphic history becomes when the actors in it speak for themselves, and events as they emerge stamp themselves

The Congressional Globe and Appendix is so voluminous tity they are capable of turning out in a given time. that it can only be read by our busy countrymen partially during its progress. Some are interested in one measure, some in another. Different sections look for the most part to the action of their several representatives—the concerns of one frequently possessing no interest for the rest-and amidst the mass it is difficult for each section, or individual, to get at the special matter most interesting to them. To obviate this, and enable all to get a glance, a general view of the entire proceedings of Congress, and to fix their attention on what suits their particular views, I will publish in future, in addition to the Daily Globe and the Congressional Globe and Appendix, a Tueswhere he is now prepared to serve MEALS at short no- day's Congressional Globe, containing a brief of each day's debate on every important subject discussed dusiness to recommend his establishment to the custom and ring the preceding week, arranging the names of the speakers pro and con., and presenting the points discussed and leading arguments on each side, somewhat in Families furnished with OYSTERS at reduced prices. the mode in which forensic briefs are prepared. This paper I will send gratuitously to every subscriber to the Congressional Globe and Appendix; and to those who may consider their summary sufficient without them, the subscription price for this weekly will be two dollars per an-

The brief synopsis of debates will fill but a small part of the contents of this weekly sheet. It will contain every important item of foreign and domestic news which can be gleamed from the daily prints during the week, together with that which may be brought by telegraph at the mo-ment of going to press. It will contain, besides, the interesting miscellany which is given in the Daily Globe, and the Washington gossip of the letter-writers, extracted from Oct 18 the different newspapers which employ them, whenever they shall be esteemed of such import as to interest the readers of the Globe, and bear such probability on their face as to warrant their insertion.

As this weekly paper will be sent to all the subscribers or the Congressional Globe and Appendix, it will certainly have a more general circulation than any other newspaper in the United States, and will, therefore, invite advertisements from every section of the Union, especially the wholesale merchants in the great cities, which will give it addi

tional interest with business men everywhere.

The Daily Globe will be printed on a double royal sheet, twice a day during the sessions of Congress—at eleven o'clock, a. m., and five o'clock, p. m., during the recesses, at five dollars a year for either the morning or evening edi tion. The evening edition is the one most suitable for subscribers who live out of this city, as it will contain, besides the full proceedings of Congress of the day before published in the morning edition, a full synopsis of those of the day, together with the news by telegraph; and from other sources, up to the hour that it is put to press. It will contain, also, all laws and joint resolutions passed by Congress.

The Congressional Globe and Appendix will also be prined on a double royal sheet, in book form, royal quarto size, each number containing sixteen pages. The Congressional Globe will be made up of the proceedings of Congress, and the running debates as taken down by the reporters. The Appendix will contain messages of the President of the U-nited States, the reports of the heads of the executive departments, such speeches as have been withheld by mem-bers of Congress for revision, and all the laws and joint resolutions passed during the session. A complete index will be made soon after Congress adjourns, and sent to all sub scribers for the work. Should any numbers fail to reach subscribers, they will be sent to them without charge, whenever they advise me what numbers they have not received. Subscribers should be careful to file all the numbers received, as the complete work will be found to be very valuable to them, and the expense of furnishing missing numbers very expensive to me.

The debates of Congress are now as fully and as faithfuly reported in the Congressional Globe as those of any other egislative body are in this or any other country, and yet they are sold to subscribers for one-sixth of what any other debates are sold for in this country, and one-eleventh of what | Embroidered Linen Cambric Hdkfs., plain and fig'd Swiss the debates of the British Parliament are sold for in England, where paper, reporting, type, and type-setting are each and all, much cheaper than in this country. The liberal subscription by Congress enables me to sell the debates so low. etry Book—illustrated with many engravings; this book and Congress, for the purpose of enabling the people to obcontains 130 choice pieces of Poetry, and 20 beautiful tain them at as low a rate as they can be afforded, passed hymns, by - City Characters, or Familiar Scenes | the following joint resolution, authorizing them to go free

Approved August 6, 1852.

Tuesday's Congressional Globe will be published every Tuesday, and contain all that is promised above. It will be commenced on a double royal sheet, but if that shall be found not large enough to contain all the matter, then the sheet will be enlarged.

ASTONISHING CURE OF SORE LEGS, AFTER NINE YEARS STANDING. Copy of a Letter from W. J. Langley, of Huntsville,

Yadkin Co., N. C., dated Nov. 1, 1853. Read his Own Words! Sir: It is not my wish to become notorious, neither is this letter written for the mere sake of writing, but to say, that your Ointment cured me of one of the most dreadful curtaneous diseases that flesh is heir to, and which was considered, by all who knew me, to be entirely beyond the reach of medicine. For nine years I was afflicted with one of the most painful and troublesome sore legs that ever fell to the lot of man; and after trying every medicine I ever heard of, I resigned in despair all hope of being cured; but a friend brought me a couple of large pots of your Ointment, which & Co., Charleston, S. C. caused the sores on my legs to heal, and I entirely regained my health to my agreeable surprise and delight, and to the astonishment of my friends.

AN EXTRAORDINARY CURE OF A BAD BREAST, WHEN NEARLY AT THE POINT OF DEATH. Copy of a Letter from Mr. R. Durant, New-Orleans,

November 1, 1853. To Prof. Holloway, 38, Cor. of Ann and Nassau sts., N. Y Dear Sir: It is with heartfelt gratitude I have to inform my wife has been saved. For seven years she had a bad breast, with ten running wounds, (not of a cancerous nature) I was told that nothing could save her; she was then induced to use your Ointment and Pills, when in the short space of three months, they effected a perfect cure, to the astonishment of all who knew us. We obtained your Medicine from Messrs. Wright & Co., of Chartres-street, New-Orleans. I send this from "Hotel des Princes," Paris, although, I had written it at New Orleans, before we finally to the process of digestion. The Hygeana is for sale at left, at that time, not knowing your address at New York. R. DURANT.

FEVER AND AGUE. DR. EDWARD BLEECKER'S STAMPEDE MIXTURE FOR the Fever and Ague, Chagers Fever, Dyspepsia and all Billious Affections.

The Proprietor of this Medicine will state, without hesitation or fear of contradiction, that the Stampede Mixture has cured more persons where it has been introduced, than any other medicine in use for the above diseases. This medicine has neither Arsenic por Quinine in its composition, all of the ingredients are of a perfectly healthy character, and highly stimulating and invigorating in their tendency. Persons while using this medicine will not be affected by exposure to water or a damp atmosphere no more than in their usual health. Planters in sections of the country where the Ague prevails, will do well to adopt this medicine, as the patient is not obliged to lay by while under treatment, and they may be assured of a speedy cure. The Proprietor could introduce thousands of certificates from those of the highest respectability, but prefers saying to the sick buy one bottle and you will have the infallible proof in yourself .-Full directions for its use accompany each bottle.

Certificates can be seen at the office, showing where this Medicine has cured when all others have failed. For Dyspepsia and all other Billions Complaints, there

is not a better Medicine in the market. It has also been taken with the most astonishing success in several cases of Rheumatism and Gout; for these complaints take a table-spoonful twice a day.

HYGEANA.

BROUGHT HOME TO THE DOOR OF THE MILLION. WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the Lungs. We refer to "Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup." With this new method Dr. C. has reyou that by the use of your Ointment and Pills, the life of stored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks: It is evident that inhaling-constantly breathing an agreeable, healing vapor, the medicinal properties must come in direct contact with the whole of the arial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stemach, and subjected all the druggists' throughout the country.
