To the Wheat Growers, Cotton and Corn Plana ters of North Carolina.

THE undersigned will the coming autumn, take measures to attract a more extensive enquiry into the value and merits of his chemical compound, than he has heretofore done, in your State. They have been tried to a moderate extent by several planters of North Carolina, and as far as he has understood, with decided approval. In other States it has commanded an attention and use, subordinate to neither Peruvian Guano, or any other manure. It has been recommended as the best cotton and corn manure known to this age, by the distinguished State Chemist of Maryland, Dr. Higgins. It is not inferior as a fertilizer of wheat, and second only to lime, as a permanent and durable improver of the soil. Lands in Maryland that have been bought at \$10 per acre, have by the use of Guano and Salts, in less than four years readily commanded \$50 per acre, with a yearly large and profitable crop. The undersigned is anxious that the agriculturists of

made of his fertilizers, and if upon trial they prove inefficient, he invites them to express their disapproval through the public prints; and if attended with expense he will defray it, but if upon the contrary, they should prove meritorious, advance the public good-increase your agricultural products -and renovate worn out and impovershed soil; then will be hope for your patronage, and ony so far as experience proves it to be to your interest. He respectfully asks your consideration and attention to the following letter, written by one of the most enterprising and accomplished planters of Maryland-among the first in intelligence and position of that band of practical and intellectual agriculturists of Maryland, who by their teaching and example have revolutionised the appearance and changed the agricultural destiny of that State. Without consulting him, I can venture to say he will cheerfully give any further information that may be

asked, by directing to the Hon. W. W. W. Bowe, Old Fields, Prince George's county, Maryland. Col. Bowie used the Guano and Salts half and half: Peruvian Guano, (best) & Chemical Salts \$40 per ton. Chemical Salts, or Renovator.

HENRY NUTT, Esq., Sole Agent for North Carolina, JOHN KETTLEWELL, Baltimore Md.

August 14th, 1855. MR. JOHN KETTLEWELL: My Dear Sir: -It affords me great pleasure to inform you that the fertiliser prepared by you and furnished me last fall, met my most sanguine expectations. I tried it side by side with Peruvian Guano, on wheat sown in land that was poor and stiff, and had a north western exposure, had been many years in cultivation, much nourished with manures and never brought a decent crop until this year, which I effected by the application of 300 lbs Peruvian Guano on part. and 200 lbs of your mixture on the other part. The wheat was sown late last November and was a fine crop. Where the fertiliser was applied, the wheat was better than any where else in the field. My best regards to ! your brother. Believe me yours truly, W. W. W. BOWIE.

P. S. Your fertiliser I consider on my land fully equal to best Peruvian Guano. Indeed, 200 lbs has vieled on same sort of land, more wheat than 300 lbs of best Peruvian Guano, after 200 lbs of Mexican applied in the spring of same year.
